Author: Alexandros BITOULAS

# Asylum applicants and first instance decisions on asylum applications: second quarter 2011

Nearly 25 % more asylum applicants in the EU-27 during the second quarter of 2011, compared with the second quarter of 2010

There was a large increase in asylum applicants in the second quarter of 2011 compared with the same quarter of the previous year<sup>1</sup>. Nearly 69 000 asylum seekers applied for asylum in the EU-27. This represents an increase of about 12 800, or 23 per cent more compared with the second quarter of 2010.

Reflecting the civil and political crises in North Africa, the number of asylum applicants in Malta increased by a factor of 56. Accordingly, the citizenships recording the highest relative increases in applicants were Tunisians and Libyans, increasing by six times and five times respectively.

Persons from 142 countries applied for a type of international protection in the EU-27, with Afghans, Russians and Iraqis lodging the

highest numbers of asylum applications in absolute terms (6 460, 3 900 and 3 465 respectively).

Three main destination countries - France, Germany and Belgium - accepted about half of all asylum applications in the EU-27 in the second quarter of 2011 (14 505, 10 820 and 7 160 respectively). These three countries were also the main destination countries in the previous quarter.

Italy and Belgium recorded the highest increases of asylum applicants in absolute terms (4 225 and 2 255 more respectively).

Approximately 57 000 first instance decisions on asylum applications were issued, of which a quarter were positive, granting a protection status. Of every 10 positive decisions, around 5 granted refugee status, compared to 4 granting subsidiary protection status and 1 granting protection for humanitarian reasons.

Figure 1: Asylum applicants, EU-27, January 2010 - June 2011

# Increase in asylum applicants

The number of asylum applicants increased by 23 % in the second quarter of 2011 compared with the same quarter of the previous year<sup>2</sup>. Overall, the number of persons seeking international protection in the EU-27 in the second quarter of 2011 reached 68 890. This was 12 800 more than in the same quarter of 2010 (Table 1).

# Where do they come from?

Citizens of 142 countries sought asylum in the EU in the second quarter of 2011. The main 3 citizenships were Afghans, Russians and Iraqis, lodging 6 460, 3 900 and 3 465 asylum applications respectively (Table 2).

The Afghans, as well as citizens of the Ivory Coast and the former Yugoslav Republic of Macedonia added most to the overall increase in asylum applicants in absolute terms (2 185, 1 360 and 1 205 more applicants respectively) (Figure 3, Table 2).

Due to civil and political conflicts in North Africa, Tunisian and Libyan asylum applicants recorded by far the largest increases during the second quarter of 2011. Tunisians increased sevenfold and Libyans fivefold, recording 1 030 and 1 135 asylum applications respectively.

Similarly, the number of applications by citizens of Mali and Ghana almost doubled in the second quarter of 2011 (830 and 1 130 applicants respectively) (Figure 3, Table 2).

#### Main destination countries

The largest numbers of applications for international protection were lodged in France, Germany and Belgium in the second quarter of 2011 (14 505, 10 820 and 7 160 respectively), representing almost half of the overall applications in the EU-27.

Malta recorded an enormous increase in asylum seekers. Almost 56 times more<sup>3</sup> asylum applications were recorded in Malta than in the same quarter of the previous year (1 595 applications compared with 25). Malta thus became the country with the highest number of applicants relative to its population (3 820 applicants per million inhabitants) (Figure 2, Table 1).

Of the 17 EU Member States that recorded increases in asylum applicants, Italy, Belgium and France recorded the highest increases in absolute terms (4 225, 2 255 and 1 925 more applications respectively) (Figure 2, Table 1). In contrast, Greece and Denmark recorded the largest decreases in absolute terms (555 and 240 fewer applicants each).

Slovakia and Ireland were the countries having the largest percentage decreases with respect to the same quarter of the previous year (about 40 % fewer applicants each) (Figure 2 and Table 1).

# What is their age and sex?

Almost 8 in 10 of the 68 890 asylum applicants in the EU-27 were below the age of 35 and 1 in 4 was a minor<sup>4</sup>. Nearly half of the Afghan, Russian and Serbian applicants were minors and around 80 % of Tunisians, Malians and Ghanaians were aged 18-34 (Table 4).

30 % of asylum applicants in the EU were female. For Bangladeshi and Tunisian citizens, the proportion is even lower (around 5 % of asylum seekers were women). In contrast, for citizens of the Congo and Russia, the ratio of women to men was 1 to 1 (Figure 4, Figure 5).

# **Decisions on asylum applications**

56 980 first instance decisions were made by the national authorities of EU Member States during the second quarter of 2011. Amongst them, 1 in 4 decisions was positive, granting asylum or some other form of international protection.

France, Germany and Sweden issued the most first instance total decisions<sup>5</sup> in the second quarter of 2011 (11 090, 9 620 and 6 570 respectively). Germany and Sweden also granted the most positive decisions in the EU-27 (Table 9).

Germany issued the most decisions granting refugee status (1 730), Sweden the most decisions granting subsidiary protection (1 410) and Italy issued the most decisions granting protection for humanitarian reasons (645). (Table 9, Table 10).

In terms of citizenship, most decisions were issued to Afghans, Iraqis and Russians. Similarly, the citizenships granted the most positive decisions (i.e. a type of international protection) were Afghans, Somalis and Iraqis (Figure 7, Table 11).

<sup>&</sup>lt;sup>2</sup> Asylum applicants increased also by 4% compared to the previous quarter of the same year, 2011.

<sup>&</sup>lt;sup>3</sup> Please note that calculations are made on unrounded figures.

<sup>&</sup>lt;sup>4</sup> Minors are persons under the age of 18.

<sup>&</sup>lt;sup>5</sup> Total decisions equal to positive decisions plus negative decisions.

#### **METHODOLOGICAL NOTES**

#### **DATA SOURCES**

The data used for this publication are provided to Eurostat by the Ministries of Interior, Justice or immigration agencies of the Member States. Data are based entirely on relevant administrative sources. Apart from statistics on new asylum applicants, these data are supplied by Member States according to the provisions of Article 4 of the Regulation (EC) 862/2007 of 11 July 2007 on Community statistics on migration and international protection.

All data presented in this publication are rounded to the nearest 5.

All data presented in this publication are provisional (except as otherwise stated) and may be a subject to change.

#### **DEFINITIONS AND COVERAGE**

'Asylum applicant' means a person having submitted an application for international protection or having been included in such application as a family member during the reference period. 'Application for international protection' means an application for international protection as defined in Art.2(g) of Council Directive 2004/83/EC, i.e. including requests for refugee status or for subsidiary protection status. irrespective of whether the application was lodged on arrival at border, or from inside the country, and irrespective of whether the person entered the territory legally (e.g. as a tourist) or illegally. In deciding when to regard an asylum application as having been lodged, the principles expressed in Article 4(1) of Council Regulation 2003/343/EC should be applied, i.e. 'An application for asylum shall be deemed to have been lodged once a form submitted by the applicant for asylum or a report prepared by the authorities has reached the competent authorities of the Member State concerned. Where an application is not made in writing, the time elapsing between the statement of intention and the preparation of a report should be as short as possible'. Applications submitted by persons who are subsequently found to be a subject of a Dublin procedure (Council Regulation (EC) No 343/2003) are included in the number of asylum applications. Within the same reference period every person being a subject of asylum application is counted only once, therefore repeat applications are not recorded if the first application has been lodged in the same reference period. However, such a repeat application will be recorded if lodged in a different reference month. It means that the aggregation of the monthly figures may overestimate the number of persons applying for international protection within the aggregated period (quarter or year).

In some Member States (e.g. **IT, MT** and **DK**) due to restrictions of the asylum procedure (e.g. time limits for lodging repeat application) repeat applications may be very rare. Therefore the number of new asylum applicants may equal or almost equal the number of asylum applicants.

The number of asylum applicants and the number of first instance decisions during the same reference period differs. This is due to the time lag between the date of asylum application and the date of the decision on asylum application. The duration of this time lag may vary considerably depending on the national asylum procedure and the administrative workload. Asylum application lodged in one reference period may therefore result in a decision in a later period, while some asylum decisions reported for that period may relate to the applications lodged in previous reference periods.

'New asylum applicant' means a person having submitted an application for international protection for the first time. Applications submitted by persons who are subsequently found to be a subject of a Dublin procedure are included in the statistics on new asylum applicants if such persons are also a subject of first asylum application. All Member States are requested to supply these data but their provision is voluntary. As persons are counted once only, statistics on new asylum applicants may be used for preparation of annual aggregates.

Person being a subject of 'a pending application' means a person who is the subject of application for international protection under consideration by the responsible national authority at the end of the reference period. It includes the number of persons with pending applications at all instances of the administrative and/or judicial procedure.

'Rejected applicant' means a person covered by a first instance decision rejecting an application for international protection, including decisions considering applications as inadmissible or as unfounded and decisions under priority and accelerated procedures, taken by administrative or judicial bodies during the reference period.

'Person granted refugee status at first instance' means a person covered by a first instance decision granting refugee status, taken by administrative or judicial bodies during the reference period. Refugee status means status as defined in Art.2 (d) of Directive 2004/83/EC within the meaning of Art.1 of the Geneva Convention relating to the Status of Refugees of 28 July 1951, as amended by the New York Protocol of 31 January 1967. According to the Art.2(c) of that Directive refugee means a third country national who, owing to a well-founded fear of being persecuted for reasons of race, religion, nationality, political opinion or membership of a particular social group, is outside the country of nationality and is unable or, owing to such fear, is unwilling to avail himself or herself of the protection of that country, or a stateless person, who, being outside of the country of former habitual residence for the same reasons as mentioned above, is unable or, owing to such fear, unwilling to return to it.

'Person granted subsidiary protection status at first instance' means a person covered by a first instance decision granting subsidiary protection status, taken by administrative or judicial bodies during the reference period. Subsidiary protection status means status as defined in Art.2 (f) of Directive 2004/83/EC. According to the Art.2(e) of that Directive a person eligible for subsidiary protection means a third country national or a stateless person who does not qualify as a refugee but in respect of whom substantial grounds have been shown for believing that the person concerned, if returned to his or her country of origin, or in the case of a stateless person, to his or her country of former habitual residence, would face a real risk of suffering serious harm and is unable, or, owing to such risk, unwilling to avail himself or herself of the protection of that country.

Person granted authorisation to stay for humanitarian reasons at first instance' means a person covered by another first instance decision granting authorisation to stay for humanitarian reasons under national law concerning international protection, taken by administrative or judicial bodies during the reference period. It includes persons who are not eligible for international protection as currently defined law but are nonetheless protected against removal under the obligations that are imposed on all Member States by international refugee or human rights instruments or on the basis of principles flowing from such instruments. Examples of such categories include persons who are not removable on ill health grounds and unaccompanied minors.

**'Dublin procedure'** means a procedure according to the Council Regulation (EC) No 343/2003, establishing the criteria and mechanisms for determining the Member State responsible for examining an asylum application lodged in one of the Member States by a third-country national.

#### **COUNTRY INFORMATION**

The number of rejections at first instance in **Italy** includes a number of recommendations to issue an authorization to stay for humanitarian reasons. These recommendations are issued by the National Asylum Commission to the Police. Such recommendation does not guarantee the grant of an authorization to stay for humanitarian reason, and therefore the number of first instance rejections is overestimated. Indeed, some individuals might be counted twice under the same reference period: first as a person rejected and recommended for an authorisation to stay for humanitarian reasons and subsequently as a person granted an authorisation to stay for humanitarian reasons.

# **European Statistical Data Support:**

With the members of the 'European statistical system', Eurostat has set up a network of support centres in nearly every Member State and in some EFTA countries.

Their role is to provide help and guidance to Internet users of European statistics.

Contact details for this support network can be found on the Eurostat website at: http://ec.europa.eu/eurostat/.

All Eurostat publications can be ordered via the 'EU Bookshop': <a href="http://bookshop.europa.eu/">http://bookshop.europa.eu/</a>.
