5. Results annexes

Annex 1: Methodological basis for selected results reported against the EU Results Framework

This annex describes the methodological basis for Chapter 2, which is in accordance with the guidelines set out in the European Commission's Staff Working Document (SWD)(2018) 444 of 11 October 2018, 'A revised EU international cooperation and development results framework, the Sustainable Development Goals of the 2030 Agenda for Sustainable Development and the New European Consensus on Development'. As explained in the SWD, the term 'results' in this report covers outputs, outcomes and impacts in line with the definition of the OECD's DAC.

Outputs are the products of the development intervention; they may also include changes resulting from the intervention which are relevant to the achievement of outcomes.

Outcomes are the likely or achieved short- and medium-term effects of the outputs of the development intervention.

Impacts are the primary and secondary long-term effects produced, either directly or indirectly, by the development intervention.

Level 1: Reporting on development progress in partner countries

Data sources and coverage: The statistics used to report on the indicators were taken from international data sources (presented in Table 1). They refer to data available in December 2018, when this publication was being prepared. Whereas the previous EU RF reporting only covered EU partner countries, reporting on the revised EU RF considers all countries included in reporting by international data sources (UN database on SDGs, World Bank data, etc.).

Where regional data were available, indicators are presented by region. For eight indicators, regional aggregates were not published, and indicator values are instead presented at country level in maps.

Data collected by region refer, for the most part, to the latest year available as of December 2018. There are three exceptions. For EU RF indicator 1.1, regional values refer to 2015 except for south Asia, for which only data from 2013 were available. For EU RF indicator 1.30 (presented in a map), it was decided to use 2015 data, since the most recent data (from 2016) contained considerably fewer data points. For EU RF indicator 1.19 (also presented in a map), data availability was particularly low, so the most recent value from the period 2014–2016 was used.

Data presentation: For presentation purposes, data for EU RF indicator 1.20 'Number of refugees and asylum seekers of concern to the UNHCR by situation' were rounded using the rules presented under 'Methodology notes for EU Results Framework indicators' in the section below covering Level 2. EU RF indicator 1.18 'Passenger and freight volumes on roads (tonne-kilometres)' is expressed in millions.

Table 1. List of data sources for indicators on development progress in partner countries

EU Results Framework indicator – Level 1	Data source
1.1 Proportion of population below the international poverty line	World Bank World Development Indicators
1.2 Prevalence of moderate or severe food insecurity in the population	Global SDG Indicators Database
1.3 Prevalence of stunting among children under five years of age	Global SDG Indicators Database
1.4 Value added of agriculture as a percentage of GDP	World Bank World Development Indicators
1.5 Universal Health Coverage index	Global SDG Indicators Database
1.6 Adolescent birth rate per 1 000 adolescents aged 15–19 years	Global SDG Indicators Database
1.7 Literacy rate of 15- to 24-year-olds	World Bank World Development Indicators
1.8 Proportion of seats held by women in national parliaments	Global SDG Indicators Database
1.9 Proportion of population using safely managed drinking water services	Global SDG Indicators Database
1.10 Proportion of population using safely managed sanitation services	Global SDG Indicators Database
1.11 Proportion of population with access to electricity	Global SDG Indicators Database
1.12 Renewable energy share of the total final energy consumption	Global SDG Indicators Database
1.13 Annual growth rate of real GDP per capita	Global SDG Indicators Database
1.14 Proportion of employed population below the international poverty line, age 15+	Global SDG Indicators Database
1.15 World Bank Doing Business Distance to Frontier score	World Bank World Development Indicators
1.16 Export of goods and services as a percentage of GDP	World Bank Worldwide Governance Indicators
1.17 Proportion of youth (aged 15–24 years) not in education, employment or training	Global SDG Indicators Database

EU Results Framework indicator – Level 1	Data source
1.18 Passenger and freight volumes on roads (tonne-kilometres)	Global SDG Indicators Database
1.19 Growth rates of household expenditure or income per capita among the bottom 40 % of the population and the total population	Global SDG Indicators Database
1.20 Number of refugees and asylum seekers of concern to the UNHCR by situation	UNHCR (The UN Refugee Agency)
1.21 Direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters	Global SDG Indicators Database
1.22 Domestic material consumption per capita (tonnes), and domestic material consumption by GDP (kg per constant 2010 USD)	Global SDG Indicators Database
1.23 CO ₂ emission per unit of value added (kg of CO ₂ per constant 2010 USD)	Global SDG Indicators Database
1.24 Coverage of protected areas in relation to marine areas	Global SDG Indicators Database
1.25 Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected area	Global SDG Indicators Database
1.26 Voice and Accountability score	World Bank Worldwide Governance Indicators
1.27 Government Effectiveness score	World Bank Worldwide Governance Indicators
1.28 Existence of independent national human rights institutions in compliance with the Paris Principles (A accredited)	Global SDG Indicators Database
1.29 Rule of Law score (as measured by the World Bank Worldwide Governance Indicators)	World Bank Worldwide Governance Indicators
1.30 Number of victims of intentional homicide per 100 000 population	Global SDG Indicators Database
1.31 Total government revenue as a proportion of GDP, by source	Global SDG Indicators Database

Level 2: Reporting on partner country results supported by the EU

This is the first year in which the sample includes ongoing interventions in addition to completed ones and the first year of reporting against the revised EU RF.

Selection criteria: Results were collected from ongoing and completed interventions ⁽¹⁾ that started from January 2014 onwards and were being implemented for at least 24 months at the time of project selection (June 2018). Upon request, EU delegations and headquarter units could request the inclusion of specific interventions which had been implemented for less than 24 months.

These selection criteria mean that interventions that started before January 2014 and ended between July 2017 and June 2018 were not included in the sample, resulting in a gap in reporting on completed interventions.

As in previous years, the results reported cannot be interpreted as providing a full picture of the interventions financed by the EU in the countries concerned.

Revision of the EU Results Framework: The revision of the EU results indicators, including the updating of methodologies for some indicators, has meant that data for some indicators cannot be cumulated across years.

In Table 1 in Chapter 2, the results are cumulated where possible. Where this is not possible due to changes in methodology, a footnote provides the values for similar indicators from the previous results framework. The results for indicators that were included in the previous results framework but which have been discontinued (and are therefore not part of Table 1 in Chapter 2) are presented in Table 2.

Table 2. Results achieved with EU support, 2013–2017

EU Results Framework indicator	Aggregated results 2013–2017
Number of teachers trained	613 000
Number of births attended by skilled health personnel	19 211 000
Number of people with HIV infection receiving antiretroviral therapy ^(a)	11 000 000
Number of insecticide-treated bed nets distributed ^(a, b)	601 000 000
Kilometres of transmission/distribution lines built or upgraded	11 000
Number of countries whose capacity to trade across borders has improved	19
Number of countries where the business environment has improved	29

¹ The interventions considered were financed using the following instruments: the EDF; the DCI; the programmable part of the IcSP under Article 5; the EIDHR; the Instrument for Nuclear Safety Cooperation; the Instrument for Greenland; and the ENI.

EU Results Framework indicator	Aggregated results 2013–2017
Number of people with access to all-season roads	20 975 000
Number of individuals directly benefiting from justice, rule of law and SSR programmes funded by EU external assistance programmes	459 000

^a The EU support to GFATM contributed to the results presented here. No EU contract with GFATM ended in 2015/16 or 2016/17, and ongoing EU support to GFATM contributed to the results reported for these years.

^b So that all data are associated with the correct EU RF reporting period, 54 of the 165 million insecticide-treated bed nets reported previously for 2015/16 were transferred to the data count for the following year. The overall cumulative result is unaffected and remains at 601 million.

Joint reporting with EUTF for Africa interventions: As part of the revision of the results framework, efforts have been made to harmonise indicator methodologies to enable joint reporting with other monitoring systems. For the first time, four indicators can be reported together with results from EUTF for Africa interventions. Thus, in addition to the figures collected through the EU RF, reporting includes 2018 figures reported through the EUTF. However, this year the contributions from the different windows of the EUTF are uneven due to variations in data collection or methodologies. Joint reporting is expected to increase gradually. The EU RF indicators that feature data via joint reporting are:

- EU RF 2.15 Number of people who have benefited from institution- or workplace-based vocational education and training (VET)/skills development interventions supported by the EU (window: Horn of Africa);
- EU RF 2.17 Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support (windows: Horn of Africa, Lake Chad, North Africa and Sahel);
- EU RF 2.18 Number of migration management or forced displacement strategies or policies a) developed/revised or b) under implementation with EU support (window: North Africa);
- EU RF 2.29 Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights (windows: Horn of Africa, Lake Chad and Sahel).

Where possible, there will be further harmonisation of methodologies to promote joint reporting for other indicators.

Data sources: Results data have been drawn from the reports of EU implementation partners (i.e. partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs). These organisations use data collected from a variety of sources, such as the management information systems of partner countries, the individual project monitoring frameworks of implementation partners and representative surveys.

Methodology notes for EU Results Framework indicators: Methodology notes have been produced for each EU RF indicator in order to ensure that data from the various reporting sources could be aggregated consistently. These notes provide definitions and data sources clearly explaining what

type of interventions should be included when reporting against an indicator. These notes, for both the original and the revised results frameworks, can be found at <http://capacity4dev.ec.europa.eu/eu-rfi>.

A common feature of all Level 2 indicators is that the results reported have been calculated using a contribution-based approach. This means that where an intervention has been financed by the EU jointly with other funders – such as partner country governments or other donors – the overall results of the collective effort are reported, rather than those linked to the share of funding provided by the EU specifically.

EU RF indicator 2.30 ‘Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency’ is an exception in terms of scope and data collection. In addition to the interventions included in the exercise, this indicator draws on all countries with an ongoing EU budget support contract.

EU RF indicators 2.9 ‘Number of individuals with access to electricity with EU support through a) new access, b) improved access’, 2.10 ‘Renewable energy generation capacity installed with EU support (MW)’ and 2.21 ‘Greenhouse gas emissions avoided with EU support (tonnes CO₂eq)’ also include reporting by the EU–AITF. EU RF 2.9 reports inferred figures which were calculated using the KfW model for estimating access using electricity generation capacity. EU RF 2.10 and EU RF 2.21 report expected results.

Rounding of figures: The results estimates have been rounded using the following method:

- Estimates of 10 000 or more – rounded to the nearest 1 000;
- Estimates between 1 000 and 10 000 – rounded to the nearest 100;
- Estimates between 100 and 1 000 – rounded to the nearest 10;
- Estimates that are less than 100 – no rounding.

Results by sex of beneficiaries: The SWD(2018) 444 mentions that, where possible, results are to be disaggregated by sex. These results are presented in Annex 2. Where this disaggregation has not been provided, it is either because this was not relevant for the indicator in question (e.g. EU RF 2.4 ‘Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support’) or because the data were not available. Due to data availability at intervention level, the sum of sex-disaggregated results may not equal total results figures.

Results by country: When presenting results broken down by country, figures are reported according to the country where the result was achieved. While efforts have been made to capture this detailed level of reporting as far as possible, data were not always available at this level; for example, in the case of multi-country regional interventions where country-level results were not reported.

Where the EU has funded interventions in overseas countries and territories, results achieved are reported at this level. This approach is also taken where EU RF indicators measure the number of countries supported in a specific sector.

Quality: The data are subjected to an extensive quality assurance process to ensure that:

- the data sources are reliable;
- the link between the indicators from the monitoring system of the intervention and the indicators from the EU RF is robust;
- the individuals who have benefited from the same intervention over different years and/or different interventions ending and/or ongoing in the same year are only counted once.

However, given the great variety of data sources used, the data quality may vary.

Level 3: Reporting on the Directorate-General for International Cooperation and Development's organisational performance

At Level 3, the indicators selected for the revised EU RF were mainly policy mainstreaming indicators included in the first EU RF, with a few additions.

A number of indicators were discontinued following revision of the EU RF as they were already being reported elsewhere, for example in the 'Annual activity report'. The following indicators were introduced as part of the revision:

- EU RF 3.5 Amount of EU-funded international cooperation and development assistance contributing to strengthening investment climate;
- EU RF 3.8 Proportion of EU-funded international cooperation and development assistance contributing to aid for trade directed towards LDCs;
- EU RF 3.10 Amount of EU-funded international cooperation and development qualifying as ODA.

Annex 2: Aggregated results achieved with EU support – disaggregated by sex

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.1 Number of food-insecure people receiving EU assistance	12 038 000	5 206 000	4 838 000	1 993 000
2.2 Number of women of reproductive age, adolescent girls and children under five reached by nutrition-related interventions supported by the EU	5 811 000	2 860 000	2 166 000	784 000
2.3 Number of smallholders reached with EU-supported interventions aimed to increase their sustainable production, access to markets and/or security of land	3 144 000	770 000	1 459 000	915 000
2.4 Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support (ha)	476 000	Not applicable	Not applicable	Not applicable
2.5 Number of one-year-olds fully immunised with EU support	63 806 000	–	–	63 806 000
2.6 Number of women of reproductive age using modern contraception methods with EU support	13 850 000	13 850 000	–	–
2.7a Number of students enrolled in education with EU support: a) primary education	10 041 000	4 184 000	4 539 000	1 317 000
2.7b Number of students enrolled in education with EU support: b) secondary education	1 767 000	795 000	783 000	189 000
2.8 Number of individuals with access to improved drinking water source and/or sanitation facility with EU support	723 000	31 000	32 000	660 000

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.9 Number of individuals with access to electricity with EU support through a) new access, b) improved access	16 853 000	–	–	16 853 000
2.10 Renewable energy generation capacity installed with EU support (MW)	7 300	Not applicable	Not applicable	Not applicable
2.11 Number of jobs supported/sustained by the EU	67 000	6 800	7 400	53 000
2.12 Number of countries supported by the EU to strengthen investment climate	46	Not applicable	Not applicable	Not applicable
2.13a Number of beneficiaries with access to financial services with EU support: a) firms	4 900	Not applicable	Not applicable	Not applicable
2.13b Number of beneficiaries with access to financial services with EU support: b) individuals	1 163 000	97 000	186 000	880 000
2.14 Number of quality schemes adopted by economic operators with EU support	64	Not applicable	Not applicable	Not applicable
2.15 Number of people who have benefited from institution- or workplace-based VET/skills development interventions supported by the EU	138 000	24 000	20 000	94 000
2.16 Total length of road supported by the EU through a) construction, b) rehabilitation, c) maintenance (km)	22 000	Not applicable	Not applicable	Not applicable
2.17 Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support	1 500 000	65 000	75 000	1 361 000

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.18a Number of migration management or forced displacement strategies or policies: a) developed/revised with EU support	24	Not applicable	Not applicable	Not applicable
2.18b Number of migration management or forced displacement strategies or policies: b) under implementation with EU support	19	Not applicable	Not applicable	Not applicable
2.19 Number of countries and cities with climate change and/or disaster risk reduction strategies a) developed, b) under implementation with EU support	91	Not applicable	Not applicable	Not applicable
2.20 Number of micro, small and medium-sized enterprises (MSMEs) applying sustainable consumption and production (SCP) practices with EU support	6 500	Not applicable	Not applicable	Not applicable
2.21 Greenhouse gas emissions avoided with EU support (tonnes CO ₂ eq)	18 376 000	Not applicable	Not applicable	Not applicable
2.22a Marine areas under a) protection with EU support (km ²)	2 700	Not applicable	Not applicable	Not applicable
2.23a Areas of terrestrial and freshwater ecosystems under: a) protection with EU support (ha)	6 936 000	Not applicable	Not applicable	Not applicable
2.23b Areas of terrestrial and freshwater ecosystems under: b) sustainable management with EU support (ha)	155 000	Not applicable	Not applicable	Not applicable
2.24 Number of countries supported by the EU to conduct elections and/or improve their electoral process	22	Not applicable	Not applicable	Not applicable

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.25 Number of government policies developed or revised with civil society organisation (CSO) participation through EU support	93	Not applicable	Not applicable	Not applicable
2.26 Number of victims of human rights violations directly benefiting from assistance funded by the EU	42 000	1 600	6 400	34 000
2.27 Number of people directly benefiting from legal aid interventions supported by the EU	168 000	34 000	36 000	97 000
2.28 Number of individuals directly benefiting from EU-supported interventions that specifically aim to support civilian post-conflict peacebuilding and/or conflict prevention	285 000	39 000	45 000	200 000
2.29 Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights	2 300	Not applicable	Not applicable	Not applicable
2.30 Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency	98	Not applicable	Not applicable	Not applicable

Annex 3: Aggregated results achieved with EU support – disaggregated by country

2.1 Number of food-insecure people receiving EU assistance		12 038 000	
Afghanistan	614 000	Malawi	27 000
Burkina Faso	7 000	Mali	135 000
Central African Republic	1 500	Mauritania	7 400

2.30 Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency	98	73	74 %

Annex 6: Western Balkans and Turkey Region

Methodological basis for the report on selected results

EU aid to the Western Balkans and Turkey (WBT) region is focused on the Instrument for Pre-accession Assistance (IPA II). This annex describes the methodological basis for results reporting against the IPA II Performance Framework (IPA II PF). The term 'results' in this report covers outputs, outcomes and impacts in line with the definition of the OECD DAC.

Outputs are the products of the intervention; they may also include changes resulting from the intervention which are relevant to the achievement of outcomes.

Outcomes are the likely or achieved short- and medium-term effects of the intervention's outputs.

Impacts are the primary and secondary long-term effects produced by an intervention, either directly or indirectly.

Level 1: Reporting on overall progress in partner countries

As this is the first full results reporting exercise for the WBT region, data were not collected at Level 1 of the IPA II PF.

Level 2: Reporting on partner country results supported by the EU

In common with the EU RF results reporting exercise, reporting for the WBT region, using the IPA II PF, is based on a sample of both recently closed and ongoing interventions. This represents the first year of reporting against the IPA II PF.

Selection criteria: The purpose of the selection criteria is to identify a representative sample of ongoing or recently closed interventions at the intervention selection date (June 2018). Results were collected from ongoing and completed interventions with an EU allocation in excess of EUR 500 000. Interventions that started between January 2014 and June 2017 and which ended after December 2016 or were under implementation for at least 12 months at the time of project selection (June 2018) were included. Upon request, EU delegations and headquarter units could request the inclusion of interventions which had been implemented for less than 12 months.

The results reported cannot be interpreted as providing a full picture of the interventions financed by the EU in the countries concerned.

IPA II PF methodology notes: To guide the results reporting, methodology notes were already available for the 11 indicators common to both the EU RF and the IPA II PF. Further guidance was provided for the IPA II PF indicators, for which no formal methodology note was available. The methodology notes and guidance sought to ensure that data from the various reporting sources could be aggregated consistently across the different interventions. These notes provide definitions and data sources clearly explaining what type of interventions should be included when reporting against an indicator.

A common feature of all IPA II PF Level 2 indicators is that the results reported have been calculated using a contribution approach. This means that where a project has been financed by the EU jointly with other funders – such as partner country governments or other donors – the overall results of

the collective effort are reported, rather than those linked to the share of funding provided by the EU.

Results by sex of beneficiaries: sufficient data on sex of beneficiaries were not available for those IPA II PF indicators where this is relevant. It is intended that disaggregation by sex will be presented in the 2019 results reporting exercise and from then on.

Results by country: Table 2 in this annex presents results by the country where the result was achieved. Efforts have been made to ensure availability of data for this detailed level of reporting. In the case of multi-country regional interventions, it was not always possible to disaggregate the results by country due to lack of data.

Table 1. Aggregated results achieved with EU support

IPA II Performance Framework indicator	Results 2018
2.3 Number of legal/administrative acts/measures (including at constitutional level) i) adopted or ii) implemented with EU support with the objective of increasing independence and impartiality and/or accountability and/or professionalism and/or competence and/or efficiency of the national justice system	9

6. Financial annexes

6.1. Introduction to financial tables

This annual report provides an overview of policies, objectives and achievements in 2018. The tables and graphs that follow present the main data on EU development assistance in 2018 by country, region, sector and instrument. For the third consecutive year, the financial annexes present data on the implementation of the EU Trust Funds (EUTFs) (Tables EUTF 1 to EUTF 6).

The legal and financial basis of EU development assistance under the current Multiannual Financial Framework is composed of a number of instruments, which can be geographic (targeting a group of countries) or thematic (targeting a specific development issue). The geographic cooperation with ACP countries is based on the Partnership Agreement with the ACP signatory states and is mainly financed, South Africa excepted, by the EDF, which is separate from the EU budget. External assistance for other geographic areas and the thematic programmes with worldwide coverage are financed from the general EU budget under different instruments, such as the DCI and the ENI.

Wherever reference is made in the following tables to the 'EU budget', this refers to the budget managed by the European Commission and does not cover Member States' national budgets for development assistance.

The reporting dimensions used in the financial annexes of this annual report are compliant with international standards as defined by the OECD DAC.

- The concept of ODA, used throughout the tables, is defined by the OECD DAC. Not all EU external assistance can be reported as ODA. Whether a project is classified as ODA or not depends on the eligibility of the recipient country and the purpose and contents of the project.
- The definition of 'region' reflects the country groupings used by OECD DAC for reference and does not always coincide with the country groupings used in the European Commission instruments. Some of the tables provide a breakdown by country and instrument for analytical purposes.
- The grouping of ODA-eligible countries in four groups (LDCs, other low-income countries (OLICs), lower middle-income countries (LMICs) and upper middle-income countries (UMICs)) is widely used by OECD DAC and other international organisations. It is based on calculations of gross national income (GNI) per capita and on human development indexes.
- The activity sectors used in the tables are those used by OECD DAC for sectoral disaggregation (DAC purpose codes).

The presentation of tables in this annual report was reorganised and improved in 2016. The continuity of statistical series has been guaranteed. A list of abbreviations used in these annexes is also provided.

At the top of every table in the financial annexes, there is a small box that references the three key financial dimensions of the report: whether the figures in the table are Commitments or Disbursements (C or D, respectively); whether figures refer to ODA or non-ODA (Y or N is assigned for each category); which of the EDF, Directorate-General for Development and Cooperation (DEVCO) budget lines and non-DEVCO budget lines (including Directorate-General for Neighbourhood and Enlargement Negotiations) are included (Y or N is applied for each of these).

Annex 1 shows the relative importance of external assistance in the overall expenditure of the European Commission.

Annex 2 provides a breakdown of ODA and non-ODA by Directorate-General.

Annexes 3 and 4 provide detailed breakdowns of the budget by managing entity and instrument.

Annex 5 presents a summary of the EDF for 2018.

Annex 6 gives a sectoral breakdown of ODA by Directorate-General.

Annex 7 gives a breakdown of European Commission external aid by country.

Annex 8 shows the distribution of ODA by OECD sector and different country groupings, including the country income level group.

Annex 9 provides a breakdown of ODA by sector and by country.

Annexes 10 and 11 provide a sectoral breakdown by OECD DAC region for DEVCO and non-DEVCO ODA respectively.

Annex 12 combines a breakdown by sector and by European Commission instrument.

Annex 13 provides a breakdown by country and by European Commission instrument.

Annex 14 provides a breakdown by aid mechanism (project approach, sectoral budget support or general budget support (GBS)) and instrument.

Annex 15 provides a breakdown of sources of external assistance over the period 2014–2018.

Annexes 16 to 19 also provide a historical perspective (2014–2018) for the sectoral breakdown of ODA, the regional distribution of aid to developing countries, the breakdown of ODA by instrument and the breakdown by aid mechanism.

Annex 20 provides data on transfer agreements to the European Commission; that is, earmarked funds that have been transferred to the European Commission by countries for specific projects and are recorded as part of the EDF and budget accounts.

Annexes EUTF 1 to EUTF 6 provide information on the implementation of EUTFs. These are new development tools that pool together resources from different donors (including the European Commission) in order to enable a quick, flexible and collective EU response to the different dimensions of a situation requiring an urgent response.

As of 2018, four EUTFs are active: the EUTF for Africa (fostering stability and assisting a broad group of countries across the African continent), the EUTF for Bêkou (addressing the crisis in Central Africa), the EUTF for Madad (addressing the consequences of the Syrian crisis) and the EUTF for Colombia (in support of Colombia's post-conflict peacebuilding efforts).

It should be noted that the EUTFs are specific instruments with their own accounts and financial management. As a result, it is not possible to consolidate their accounts with those of the EDF and Budget. Annexes EUTF 1 to EUTF 6 provide some information on the financial implementation of the EUTFs in a way that is consistent with international OECD standards.

Annex EUTF 1 shows the contributions to the EUTFs during previous years and for 2018.

Annexes EUTF 2 to EUTF 6 provide breakdowns of the expenditure realised by the active EUTFs.

6.2. Financial tables

The Annual Report consists of the following tables:

1. Percentage of EU budget committed and disbursed on external assistance in 2018
2. Proportion of external assistance used for Official Development Aid (ODA) in 2018
- 3A. General EU budget for external assistance in 2018 by policy area – Commitments
- 3B. General EU budget for external assistance in 2018 by policy area – Disbursements
- 4A. General EU budget for external assistance in 2018 by policy area – Commitments
- 4B. General EU budget for external assistance in 2018 by policy area – Disbursements
5. European Development Fund (EDF) in 2018
- 6A. Sectoral breakdown of ODA managed by the European Commission in 2018 – Commitments
- 6B. Sectoral breakdown of ODA managed by the European Commission in 2018 – Disbursements
- 7A. Country breakdown of European Commission development aid in 2018 – Commitments
- 7B. Country breakdown of European Commission development aid in 2018 – Disbursements
8. Distribution of ODA by OECD sector and country grouping in 2018
- 9A. ODA recipient country by main OECD sector in 2018 – Commitments
- 9B. ODA recipient country by main OECD sector in 2018 – Disbursements
- 10A. DEVCO in 2018: A closer look. Sectoral breakdown per region – Commitments
- 10B. DEVCO in 2018: A closer look. Sectoral breakdown per region – Disbursements
- 11A. Budget non-DEVCO in 2018: A closer look. Sectoral breakdown per region – Commitments
- 11B. Budget non-DEVCO in 2018: A closer look. Sectoral breakdown per region – Disbursements
- 12A. Sectoral breakdown per instrument in 2018 – Commitments
- 12B. Sectoral breakdown per instrument in 2018 – Disbursements
- 13A. Breakdown by country and instrument for 2018 – Commitments
- 13B. Breakdown by country and instrument for 2018 – Disbursements
- 14A. Breakdown by aid mechanism and by instrument 2018 – Commitments
- 14B. Breakdown by aid mechanism and by instrument 2018 – Disbursements
- 15A. Sources of external assistance in 2014–2018 – Commitments
- 15B. Sources of external assistance in 2014–2018 – Disbursements
16. Sectoral breakdown of ODA 2014–2018

17A. Regional distribution of aid to developing countries (ODA) 2014–2018

17B. Regional distribution of aid to developing countries (ODA) 2014–2018

18. ODA by instrument in 2014–2018

19. Breakdown by aid mechanism for 2014–2018

20. Evolution of the Transfer Agreements by DG

The financial annexes of the Annual Report include breakdowns of the EUTFs:

EUTF 1. Overview of incoming contributions (disbursements from contributors)

EUTF 2A. Overview of committed and disbursed amounts

EUTF 2B. Proportion of EUTF assistance used for Official Development Aid (ODA) in 2018

EUTF 3A. Sectoral breakdown of the EUTF for Africa

EUTF 3B. Regional breakdown of the EUTF for Africa

EUTF 4. Sectoral breakdown of the EUTF for Bêkou

EUTF 5. Sectoral breakdown of the EUTF for Colombia

EUTF 6. Sectoral breakdown of the EUTF for Madad

Note:

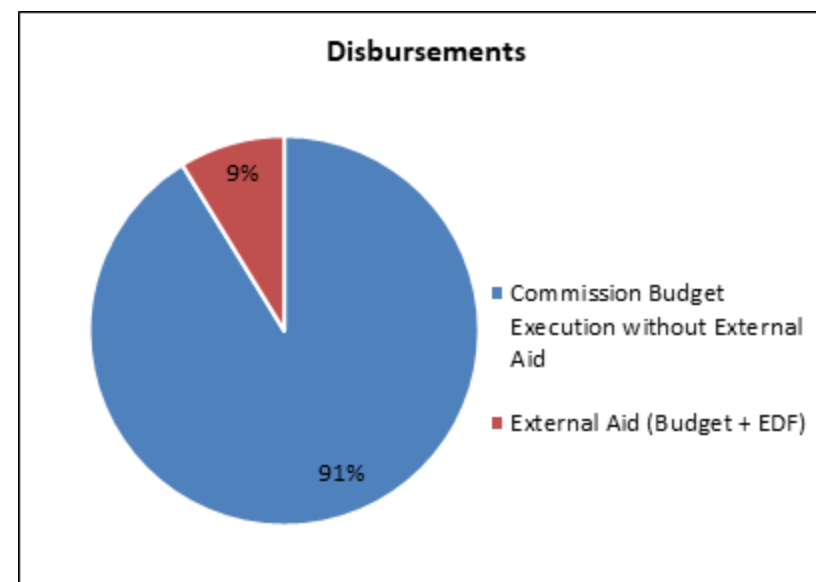

All amounts are displayed in million EUR.
