A farm structure survey was carried out in all EU Member States in 2003 (2002 in Poland). The detailed results are now available for 10 Member States: Belgium, Denmark, Ireland, Latvia, Luxembourg, Hungary, Malta, Finland, Sweden and the United Kingdom. Results for the other Member States will become available in the course of the next six months. This Statistics in Focus is the first of a series of country-specific publications, all following the same structure.

* * *

In Belgium, in May, 2003, almost 53 000 agricultural holdings had an economic size of at least one ESU (European size unit)*, which means a 14% decline compared to 2000.

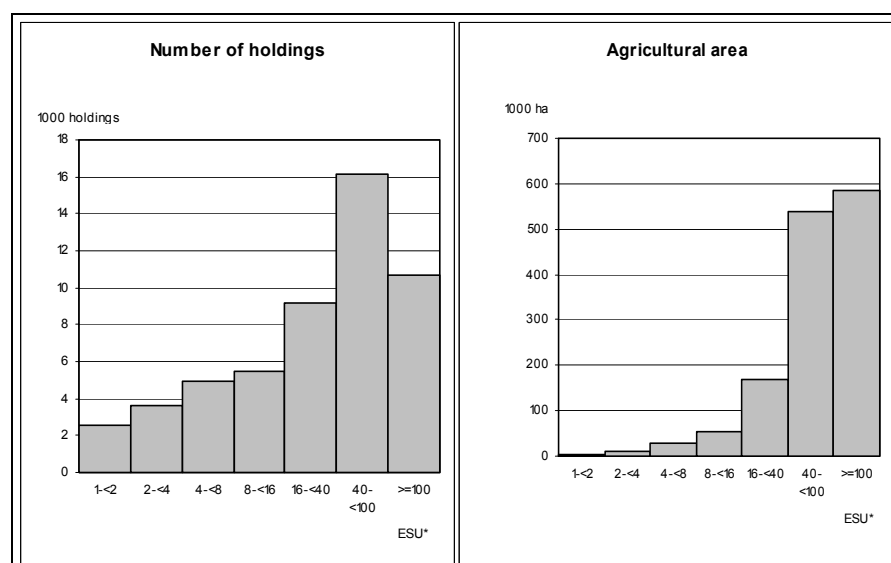

- These holdings employed 71 500 AWUs (annual work unit), the equivalent of 71 500 persons working full time;
- they made use of 1.4 million ha of agricultural area, which is on average 26.4 hectare per holding (compared to 22.6 ha in 2000).

Amongst these 53 000 agricultural holdings,

- 20% made use of less than one AWU, while 69% made use of 2 or more AWUs;
- 25% used less than 5 ha, while 3% used more than 100 ha;
- 20% were mixed holdings, while 80% were specialised: cattle fattening and rearing 17%, dairies 16%, various grazing livestock 11%, field cropping 16%, horticulture 9% (of which almost half under glass), pigs and poultry 6%, permanent crops 5%;
- about 1% practised organic farming.

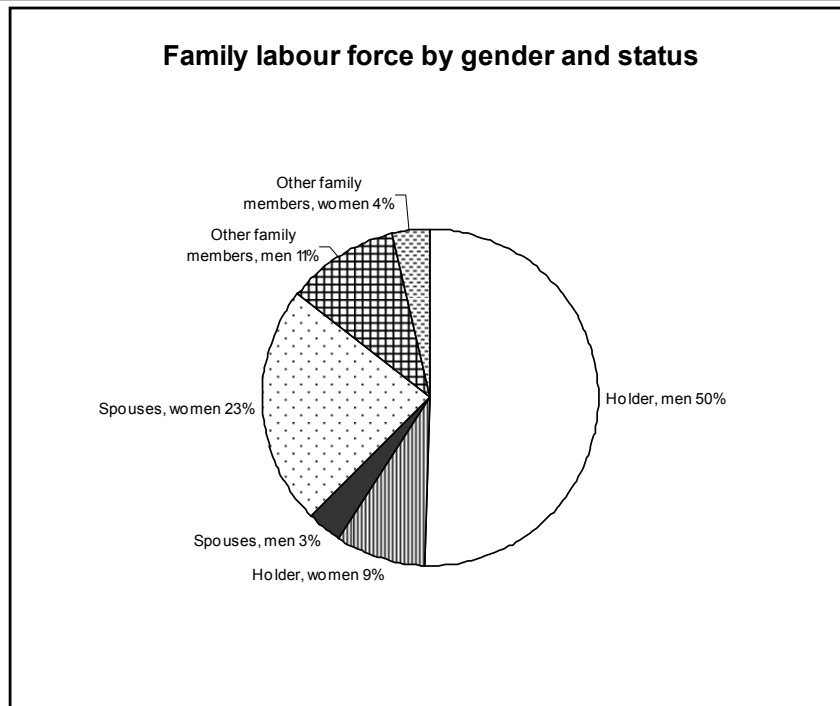

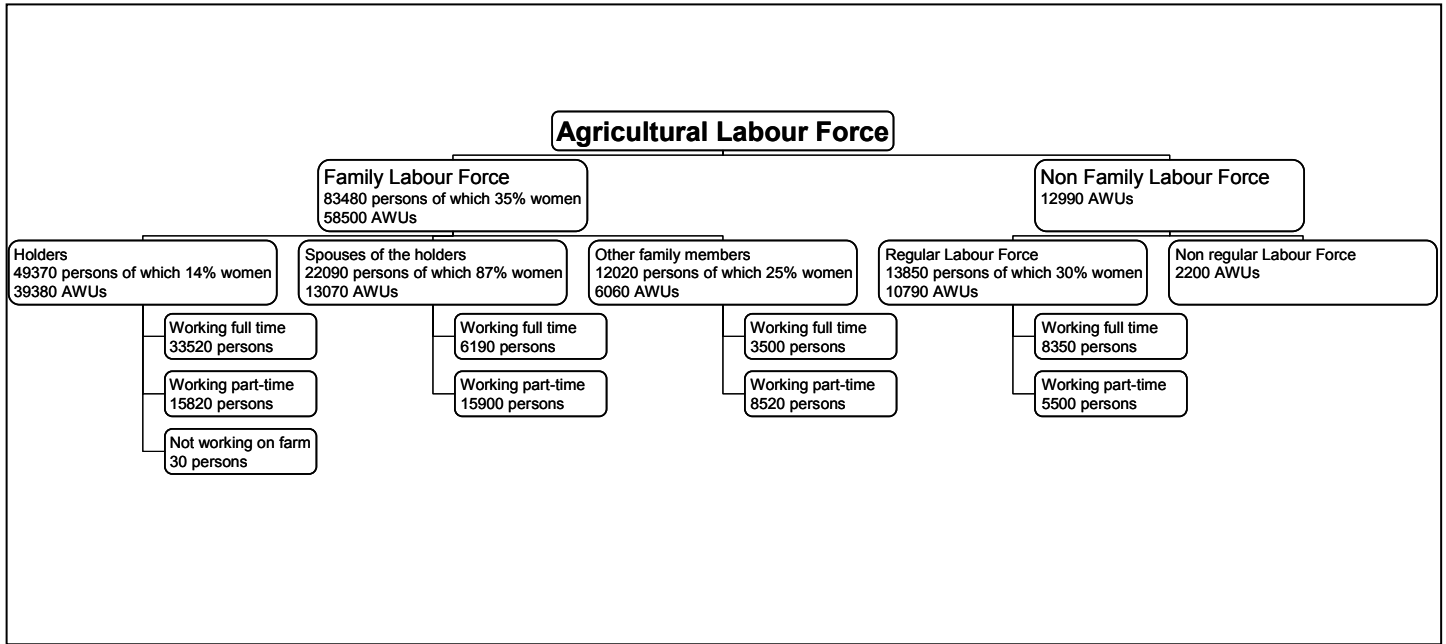

Amongst the 49 400 sole holders

- 14% were women;
- 41% were aged 55 or more – the smaller the farm size is higher the proportion of older holders;
- 9% had another gainful activity as major occupation.

* ESU measures the economic size of the holdings (see methodological notes).

Belgium, 2003 – Holdings of at least 1 ESU

► METHODOLOGICAL NOTES

The survey on the structure of agricultural holdings in Belgium was carried out in May 2003 on an exhaustive base. Such full-scale agricultural censuses have been conducted on an annual basis since 1960. The reference time of the FSS 2003 was 1 May 2003, however for farm labour force and under cover cropping the preceding 12 months.

The FSS relates to agricultural holdings whose utilised agricultural area is one hectare or more and those whose area is less than one hectare if they produce a certain proportion for sale or if their production unit exceeds certain physical thresholds. The target population was all the farms with an operating base located in Belgium.

The data are multi-level checked and the non-responding units are imputed using their previous year data.

For each activity ('enterprise') on a farm (for instance wheat, dairy cow or vineyard), a **standard gross margin (SGM)** is estimated, based on the area (or the number of heads) and a regional coefficient. The sum of such margins in a farm is its **economic size**, expressed in **European Size Units (ESU)**. 1 ESU is equal to 1200 euros.

Due to differences in the coverage of units of less than 1 ESU across Member States, these data are not comparable between countries. That is why the present analysis and graphs focus on the holdings of at least one ESU.

Each farm is classified in the community typology by its economic size and its **type of farming**, depending on the share of each enterprise in its economic size. For instance, a farm where breeding sows account for more than 2/3 of the economic size is classified as *specialist pig rearing* (type 5011). Depending on the level of aggregation, farms are grouped into 8 to 70 types.

Annual work unit (AWU) means the labour force working yearly like a worker employed on full time basis, it is 1800 hours (225 working days of 8 working hours per day).

European Statistical Data Support:

Eurostat set up with the members of the 'European statistical system' a network of support centres, which will exist in nearly all Member States as well as in some EFTA countries.

Their mission is to provide help and guidance to Internet users of European statistical data.

The complete details concerning this support network can be found on our Internet site: www.europa.eu.int/comm/eurostat/

A list of worldwide sales outlets is available at the:

Office for Official Publications of the European Communities.
