## 5. Results Annexes

### Annex 1: Methodological basis for selected results reported against the EU results framework at output and outcome level (Level 2)

This annex describes the methodological basis for Chapter 2, which is in accordance with the guidelines set out in the European Commission's Staff Working Document (SWD)(2018) 444 of 11 October 2018, 'A revised EU international cooperation and development results framework, the Sustainable Development Goals of the 2030 Agenda for Sustainable Development and the New European Consensus on Development'<sup>109</sup>. As explained in the SWD, the term 'results' in this report covers outputs, outcomes and impacts in line with the definition of the Organisation for Economic Co-operation and Development's Development Assistance Committee (OECD DAC).

Outputs are the products of the development intervention; they may also include changes resulting from the intervention, which are relevant to the achievement of outcomes.

Outcomes are the likely or achieved short- and medium-term effects of the outputs of the development intervention.

Impacts are the primary and secondary long-term effects produced, either directly or indirectly, by the development intervention.

#### **Level 2: Reporting on partner country results supported by the EU**

This is the second year in which the sample includes ongoing interventions in addition to completed ones and the first year of reporting against the revised EU results framework (EU RF).

**Selection criteria:** Level 2 reports results from a set of ongoing and completed EU-funded interventions that started between 1 January 2014 and 1 August 2018, with an EU contribution of EUR 750 000 or more. As in previous years, the results reported cannot be interpreted as providing a full picture of the interventions financed by the EU in the countries concerned.

**Reporting:** The 2018-2019 figure reports a cumulative number, including results reported since the last results reporting exercise (2018). The numbers are cumulated with careful consideration of potential double counting across projects and programmes and across years. The approach taken is to err on the side of safety, so any potentially double counted results are excluded from the results reported. For the 2013-2017 figures, the same extensive cross-year double-counting checks were not deemed to be necessary as the double-counting risk was assessed to be low.

**Quality:** The data are subjected to an extensive quality assurance process to ensure that:

- the data sources are reliable;

---

<sup>109</sup> SWD(2018) 444 final of 11 October 2018

- the link between the indicators from the monitoring system of the intervention and the indicators from the EU RF is robust;
- the individuals who have benefited from the same intervention over different years, and/or from different interventions ending and/or ongoing in the same year, are only counted once.

However, given the great variety of data sources used, the data quality may vary.

**Revision of the EU results framework:** The 2018 revision of the EU results indicators, including the updating of methodologies for some indicators, has meant that data for some indicators cannot be cumulated across years.

In Table 1 in Chapter 2, the results are cumulated where possible. Where this is not possible due to changes in methodology, a footnote provides the values for similar indicators from the previous results framework. The results for indicators that were included in the previous results framework, but which have been discontinued are presented in Table 2.

**Table 1. Results achieved with EU support, 2013–2017**

EU Results Framework indicator	Aggregated results 2013–2017
Number of teachers trained	613 000
Number of births attended by skilled health personnel	19 211 000
Number of people with HIV infection receiving antiretroviral therapy ( <sup>a</sup> )	11 000 000
Number of insecticide-treated bed nets distributed ( <sup>a, b</sup> )	601 000 000
Kilometres of transmission/distribution lines built or upgraded	11 000
Number of countries whose capacity to trade across borders has improved	19
Number of countries where the business environment has improved	29
Number of people with access to all-season roads	20 975 000
Number of individuals directly benefiting from justice, rule of law and security sector reform programmes funded by EU external assistance programmes	459 000

<sup>a</sup> The EU support to the Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM) contributed to the results presented here. No EU contract with GFATM ended in 2015/16 or 2016/17, and ongoing EU support to GFATM contributed to the results reported for these years.

<sup>b</sup> So that all data are associated with the correct EU RF reporting period, 54 of the 165 million insecticide-treated bed nets reported previously for 2015/16 were transferred to the data count for the following year. The overall cumulative result is unaffected and remains at 601 million.

**Joint reporting with EU Trust Fund for Africa interventions:** As part of the revision of the results framework, efforts have been made to harmonise indicator methodologies to enable joint reporting with other monitoring systems. For the first time, four indicators can be reported together with results from EU Trust Fund for Africa (EU TF) interventions. Thus, in addition to the figures collected through the EU RF, reporting includes 2018 figures reported through the EU TF. However, this year the contributions from the different windows of the EU TF are uneven due to variations in data collection or methodologies. Joint reporting is expected to increase gradually. The EU RF indicators that feature data via joint reporting are:

- EU RF 2.15 Number of people who have benefited from institution- or workplace-based vocational education and training (VET)/skills development interventions supported by the EU (window: Horn of Africa);
- EU RF 2.17 Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support (windows: Horn of Africa, Lake Chad, North Africa and Sahel);
- EU RF 2.18 Number of migration management or forced displacement strategies or policies a) developed/revised or b) under implementation with EU support (window: North Africa);
- EU RF 2.29 Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights (windows: Horn of Africa, Lake Chad and Sahel).

Where possible, there will be further harmonisation of methodologies to promote joint reporting for other indicators.

**Data sources:** Results data have been drawn from the reports of EU implementation partners (i.e. partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs). These organisations use data collected from a variety of sources, such as the management information systems of partner countries, the individual project monitoring frameworks of implementation partners and representative surveys.

**Methodology notes for EU results framework indicators:** Methodology notes have been produced for each EU results framework indicator in order to ensure that data from the various reporting sources could be aggregated consistently. These notes provide definitions and data sources clearly explaining what type of interventions should be included when reporting against an indicator. These notes, for both the original and the revised results frameworks, can be found at <http://capacity4dev.ec.europa.eu/eu-rfi>.

A common feature of all Level 2 indicators is that the results reported have been calculated using a contribution-based approach. This means that where an intervention has been financed by the EU jointly with other funders – such as partner country governments or other donors – the overall results of the collective effort are reported, rather than those linked to the share of funding provided by the EU specifically.

EU RF indicator 2.30 ‘Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency’ is an exception in terms of scope and data collection. In addition to the interventions included in the exercise, this indicator draws on all countries with an ongoing EU budget support contract.

EU RF indicators 2.9 ‘Number of individuals with access to electricity with EU support through a) new access, b) improved access’, 2.10 ‘Renewable energy generation capacity installed with EU support (MW)’ and 2.21 ‘Greenhouse gas emissions avoided with EU support (tonnes CO<sub>2</sub>eq)’ also include reporting by the EU–Africa Infrastructure Trust Fund (EU-AITF). EU RF 2.9 reports inferred figures, which were calculated using the KfW model for estimating access using electricity generation capacity. EU RF 2.10 and EU RF 2.21 report expected results.

**Rounding of figures:** The results estimates have been rounded using the following method:

- Estimates of 10 000 or more – rounded to the nearest 1 000;
- Estimates between 1 000 and 10 000 – rounded to the nearest 100;
- Estimates between 100 and 1 000 – rounded to the nearest 10;
- Estimates that are less than 100 – no rounding.

**Results by sex of beneficiaries:** The SWD(2018) 444 mentions that, where possible, results are to be disaggregated by sex. These results are presented in Annex 2. Where this disaggregation has not been provided, it is either because this was not relevant for the indicator in question (e.g. EU RF 2.4 ‘Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support’) or because the data were not available. Due to data availability at intervention level, the sum of sex-disaggregated results may not equal total results figures.

**Results by country:** When presenting results broken down by country, figures are reported according to the country where the result was achieved. While efforts have been made to capture this detailed level of reporting as far as possible, data were not always available at this level; for example, in the case of multi-country regional interventions where country-level results were not reported.

Where the EU has funded interventions in overseas countries and territories, results achieved are reported at this level. This approach is also taken where EU RF indicators measure the number of countries supported in a specific sector.

## Annex 2: Latest results for Level 1 indicators- Reporting on development progress in partner countries

This annex presents the latest figures for the level 1 indicators in the EU Results Framework.

**Data sources and coverage:** The statistics used to report on the indicators were taken from international data sources (presented in Table 2 below). They refer to data available in March 2020. The figures reported are world figures, considering all countries included in reporting by international data sources (United Nations (UN) database on Sustainable Development Goals, World Bank data, etc.). For five indicators, total aggregates were not available.

**Data presentation:** For presentation purposes, data for EU RF indicator 1.20 ‘Number of refugees and asylum seekers of concern to the UNHCR by situation’ were rounded using the rules presented under ‘Methodology notes for EU Results Framework indicators’ in the section below covering Level 2.

**Table2: Latest figures for Level 1 indicators**

EU RF indicator – Level 1	Latest figure	Data source
1.1 Proportion of population below the international poverty line	10% (2015)	Global SDG Indicators Database
1.2 Prevalence of moderate or severe food insecurity in the population	25.4% (2017)	Global SDG Indicators Database
1.3 Prevalence of stunting among children under five years of age	21.3% (2019)	Global SDG Indicators Database
1.4 Value added of agriculture as a percentage of GDP	3.4% (2017)	World Bank World Development Indicators
1.5 Universal Health Coverage index	66 (2017)	Global SDG Indicators Database
1.6 Adolescent birth rate per 1 000 adolescents aged 15–19 years	43.9 (2018)	Global SDG Indicators Database
1.7 Literacy rate of 15- to 24-year-olds	92% (2018)	World Bank World Development Indicators
1.8 Proportion of seats held by women in national parliaments	24.9% (2020)	Global SDG Indicators Database
1.9 Proportion of population using safely managed drinking water services	70.6% (2017)	Global SDG Indicators Database
1.10 Proportion of population using safely managed sanitation services	45% (2017)	Global SDG Indicators Database
1.11 Proportion of population with access to electricity	88.8% (2017)	Global SDG Indicators Database
1.12 Renewable energy share of the total final energy consumption	17.3% (2017)	Global SDG Indicators Database
1.13 Annual growth rate of real GDP per	2% (2018)	Global SDG Indicators

EU RF indicator – Level 1	Latest figure	Data source
capita		Database
1.14 Proportion of employed population below the international poverty line, age 15+	7.1% (2019)	Global SDG Indicators Database
1.15 World Bank Doing Business Distance to Frontier score	63 (2019)	World Development Indicators
1.16 Export of goods and services as a percentage of GDP	30.1% (2018)	World Bank Worldwide Governance indicators
1.17 Proportion of youth (aged 15–24 years) not in education, employment or training	22.2% (2019)	Global SDG Indicators Database
1.18 Passenger and freight volumes on roads (tonne-kilometres)	Freight: 36 985 778 829 990.8 Passenger: 57 305 098 132 985.6 (2018)	Global SDG Indicators Database
1.19 Growth rates of household expenditure or income per capita among the bottom 40% of the population and the total population	No world aggregate available	Global SDG Indicators Database
1.20 Number of refugees and asylum seekers of concern to the UNHCR by situation	Total Refugees (incl. refugee like situation): 18 474 000 Asylum seekers: 2 955 000 (2018)	UNHCR (The UN Refugee Agency)
1.21 Direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters	No world aggregate available	Global SDG Indicators Database
1.22 Domestic material consumption per capita (tonnes), and domestic material consumption by GDP (kg per constant 2010 USD)	Per GDP: 1.1 Per Capita: 11.7 (2017)	Global SDG Indicators Database
1.23 CO <sub>2</sub> emission per unit of value added (kg of CO <sub>2</sub> per constant 2010 USD)	0.46 (2017)	Global SDG Indicators Database
1.24 Coverage of protected areas in relation to marine areas	17.0% (2019)	Global SDG Indicators Database
1.25 Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected area	Freshwater: 40.8% Terrestrial: 43.7% (2019)	Global SDG Indicators Database
1.26 Voice and accountability score	No world aggregate available	Worldwide Governance indicators
1.27 Government effectiveness score	No world aggregate available	Worldwide Governance indicators
1.28 Existence of independent national human rights institutions in compliance with the Paris Principles (A accredited)	39.6% (2019)	Global SDG Indicators Database

EU RF indicator – Level 1	Latest figure	Data source
1.29 Rule of Law score (as measured by the World Bank Worldwide Governance indicators)	No world aggregate available	Worldwide Governance Indicators
1.30 Number of victims of intentional homicide per 100 000 population	6.1% (2017)	Global SDG Indicators Database
1.31 Total government revenue as a proportion of GDP, by source	38.3% (2019)	Global SDG Indicators Database

### Annex 3: Latest results for Level 3 indicators

This Annex presents the latest figures for indicator from level 3 of the EU Results Framework which present policy priorities. The sources of data are the European Commission's internal monitoring systems.

All indicators presented in this section have been calculated with reference to the calendar year 2019.

In terms of coverage, the figures presented here refer only to the following financing instruments managed by the Commission services in 2019: the European Development Fund (EDF)<sup>110</sup>, the Development Cooperation Instrument (DCI)<sup>111</sup>, the Instrument contributing to Stability and Peace (IcSP)<sup>112,113</sup>, the European Instrument for Democracy and Human Rights (EIDHR)<sup>114</sup>, the Instrument for Nuclear Safety Cooperation<sup>115</sup> and the Instrument for Greenland<sup>116</sup>.

Methodological notes are available here: <https://europa.eu/capacity4dev/eu-rfi>

---

<sup>110</sup> Council Regulation (EU) 2015/322 on the implementation of the 11<sup>th</sup> EDF, and Council Regulation (EU) 2015/323 on the financial regulation applicable to the 11<sup>th</sup> EDF

<sup>111</sup> Regulation (EU) No 233/2014 establishing a financing instrument for development cooperation for the period 2014-2020

<sup>112</sup> Regulation (EU) No 230/2014 establishing an instrument contributing to Stability and Peace

<sup>113</sup> Key data refer only to activities under Article 5 of the IcSP, which represents a small proportion of the overall financial envelope. The remainder is managed by the FPI under Article 3 (crisis response) and Article 4 (conflict prevention, peace building and crisis preparedness)

<sup>114</sup> Regulation (EU) No 235/2014 establishing a financing instrument for democracy and human rights worldwide

<sup>115</sup> Council Regulation (EURATOM) No 237/2014 establishing an Instrument for Nuclear Safety Cooperation

## 6. Financial annexes

### 6.1. EU development assistance in 2019

#### 6.1.1 Introduction to financial tables

This Annual Report provides an overview of policies, objectives and achievements in 2019. The tables and graphs that follow present the main data on EU development assistance in 2019 by country, region, sector and instrument (Tables 1 to 25). For the fourth consecutive year, the financial annexes also present data on the implementation of the European Union Trust Funds (tables TF1 to TF6). For the first year, and as requested by the Council of the European Union

<sup>129</sup>, the financial annexes present reporting on implementation by type of implementation partners, as referenced in the Financial Regulation<sup>130</sup>, as well as by type of instruments (to specifically include detailed information on budget support). This additional information is presented in tables 21 to 25.

The legal and financial basis of EU development assistance under the current Multiannual Financial Framework is composed of a number of instruments, which can be geographic (targeting a group of countries) or thematic (targeting a specific development issue). The geographic cooperation with the African, Caribbean and Pacific (ACP) countries is based on the Partnership Agreement with the ACP signatory states and is mainly financed, South Africa excepted, by the European Development Fund (EDF) which is separate from the EU budget. External assistance for other geographic areas and the thematic programmes with worldwide coverage are financed from the general EU budget under different instruments such as Development and Cooperation Instrument (DCI) or the European Neighbourhood Instrument (ENI).

Whenever references are made in the following tables to the 'EU budget', this refers to the budget managed by the European Commission and does not cover EU Member States' national budgets for development assistance.

The reporting dimensions used in the financial annexes of the Annual Report are compliant with international standards as defined by OECD's Development Assistance Committee (DAC):

- The concept of Official Development Assistance (ODA) used throughout the tables and figures is defined by the OECD DAC. Not all EU external assistance can be reported as ODA. Whether a project is classified as ODA or not depends on the eligibility of the recipient country and the purpose and contents of the project.
- The definition of 'region' reflects the country groupings used by OECD DAC for reference and does not always coincide with the country groupings used in the Commission instruments. The granularity level of some of the tables allow for a breakdown by country and instrument for analytical purposes.
- The grouping of ODA-eligible countries in four groups (Less Developed Countries or LDCs; Other Low Income Countries or OLICs; Lower Middle Income Countries or LMICs; and Upper Middle Income Countries or UMICs) is a dimension widely used by OECD DAC and other international organisations. It is based on Gross National Income (GNI) per capita calculations and on human development indexes.

<sup>129</sup> SD 8626/20 <https://www.consilium.europa.eu/fr/documents-publications/>

<sup>130</sup> Financial Regulation Article 62 para 1 point c). [https://ec.europa.eu/budget/library/biblio/publications/2018/financialregulation\\_en.pdf](https://ec.europa.eu/budget/library/biblio/publications/2018/financialregulation_en.pdf)

- The activity sectors used in the tables are those used by OECD DAC for sectoral identification (DAC purpose codes).

The tables presented in this report have been reorganised and improved several times since 2016, including the five additional tables this year. All necessary attention has been given to the continuity of the statistical series. A list of abbreviations used in these annexes is also provided.

At the top right of each table, a small information box specifies whether the figures in the table are Commitments or Disbursements (C or D respectively); whether only Official Development Assistance (ODA) figures are included, or non-ODA figures are included as well (Y or N, depending); which of the EDF, the DEVCO (Directorate-General for Development and Cooperation) budget lines, and the non-DEVCO budget lines (including Directorate-General for Neighbourhood and Enlargement Negotiations) are included (Y or N, depending).

All financial data in the tables in this Annex 6 is presented as EUR millions.

Table 1 shows the relative importance of external assistance in the overall expenditure of the European Commission.

Table 2 provides a breakdown between ODA and non-ODA by Directorate-General.

Tables 3 and 4 provide detailed breakdowns of the budget by managing entity and instrument.

Table 5 presents a summary of the European Development Fund for 2019.

Table 6 gives a sectoral breakdown of ODA by Directorate-General.

Table 7 gives a breakdown of European Commission external aid by country.

Table 8 shows the distribution of ODA by OECD sector and different country groupings, including the country income level group.

Table 9 combines information on ODA by sector and by country.

Tables 10 and 11 provide a sectoral breakdown by OECD DAC region for DEVCO and non-DEVCO ODA, respectively.

Table 12 combines a breakdown by sector and by Commission instrument.

Table 13 presents a breakdown by country and Commission instrument for 2019.

Table 14 introduces a breakdown by aid mechanism (project approach, sectoral budget support or general budget support) combined with instruments.

Table 15 presents the sources of external assistance from 2014-2018.

Tables 16 to 19 provide a historical perspective (for the last five years) for the sectoral breakdown, the regional distribution of aid, the breakdown by income group, Commission instrument and the breakdown by aid mechanism.

Table 20 provides data on transfer agreements to the European Commission, i.e. earmarked funds that have been transferred to the Commission by other countries for specific projects and are recorded as part of the EDF or budget accounts.

Table 21 presents Budget Support (direct management) as a share of total expenditure and the top ten countries that received budget support payments in 2019.

Table 22 shows a general breakdown of indirect management as part of total management modes, as well as a breakdown of different implementation modalities of indirect management. The taxonomy of these implementation modalities follows strictly the one indicated in Article 62.1.c of the Financial Regulation 2018.

Table 23 presents the top ten third countries that received funding in indirect management as per Article 62.1.c.i) of the Financial Regulation 2018.

Table 24 presents the detail of international organisations that received funding in indirect management (by class of international organisation and the top ten recipients) as per Article 62.1.c.ii) of the Financial Regulation 2018.

Table 25 presents the top ten Member States and non-Member State agencies that received funding in indirect management. The table covers sections v (public law bodies, including Member State organisations) and vi (bodies governed by private law with a public service mission, including Member State organisations) grouped together.

Detailed lists of contracts signed with international organisations or development agencies in indirect management are available in the Annual Activity Reports (Annex 6) of the Directorate General for International Cooperation and Development (DEVCO), the Directorate General for Neighbourhood and Enlargement Negotiations (NEAR), and the Directorate General for European Civil Protection and Humanitarian Aid Operations (ECHO) respectively, at the following link: [https://ec.europa.eu/info/publications/annual-activity-reports\\_en](https://ec.europa.eu/info/publications/annual-activity-reports_en).

Tables TF1 to TF6 provide information on the implementation of EU Trust Funds. EU Trust Funds are new development tools that pool together resources from different donors (including the European Commission) to enable a quick, flexible, and collective EU response to the different dimensions of a situation requiring urgent response.

As of 2019, four EU Trust Funds are active: TF Africa (fostering stability and assisting a broad group of countries across the African continent), TF Békou (addressing the crisis in Central Africa), TF Madad (addressing the consequences of the Syrian crisis) and TF Colombia (in support of Colombia's post-conflict peace building efforts).

It should be noted that EU Trust Funds are specific instruments with their own accounts and financial management. As a result, it is not possible to consolidate the accounts of the EU Trust Funds with the accounts of the EDF and Budget. The Annexes TF 1 to TF 6 provide some information on the financial implementation of the EU Trust Funds in a way that is consistent with international OECD standards.

Annex TF 1 shows the contributions to the Trust Funds, both during previous years and for 2019.

Annexes TF 2 to TF 6 give the breakdown of the expenditure realised by the active Trust Funds.

## 6.1.2. Financial tables

**The Annual Report main financial annex consists of the following tables:**

- 1 Percentage of EU Budget committed and disbursed on External Assistance in 2019
- 2 Proportion of external assistance used for Official Development Aid (ODA) in 2019
- 3A General EU budget for External Assistance in 2019 by Policy Area - Commitments
- 3B General EU budget for External Assistance in 2019 by Policy Area - Disbursements
- 4A General EU budget for External Assistance in 2019 by Policy Area - Commitments
- 4B General EU budget for External Assistance in 2019 by Policy Area - Disbursements
- 5 European Development Fund (EDF) in 2019
- 6A Sectoral breakdown of ODA managed by the European Commission in 2019 - Commitments
- 6B Sectoral breakdown of ODA managed by the European Commission in 2019 - Disbursements
- 7A Country breakdown of European Commission development aid in 2019 - Commitments
- 7B Country breakdown of European Commission development aid in 2019 - Disbursements
- 8 Distribution of ODA by OECD Sector and Country Grouping in 2019
- 9A ODA Recipient Country by main OECD sector in 2019 - Commitments
- 9B ODA Recipient Country by main OECD sector in 2019 - Disbursements
- 10A DEVCO in 2019: A closer look. Sectoral breakdown per region - Commitments
- 10B DEVCO in 2019: A closer look. Sectoral breakdown per region - Disbursements
- 11A Budget Non-DEVCO in 2019: A closer look. Sectoral breakdown per region - Commitments
- 11B Budget Non-DEVCO in 2019: A closer look. Sectoral breakdown per region - Disbursements
- 12A Sectoral breakdown per instrument in 2019 - Commitments
- 12B Sectoral breakdown per instrument in 2019 - Disbursements
- 13A Breakdown by country and instrument for 2019 - Commitments
- 13B Breakdown by country and instrument for 2019 - Disbursements
- 14A Breakdown by aid mechanism and by instrument 2019 - Commitments
- 14B Breakdown by aid mechanism and by instrument 2019 - Disbursements
- 15A Sources of External Assistance in 2014-2018 - Commitments
- 15B Sources of External Assistance in 2014-2018 - Disbursements
- 16 Sectoral breakdown of Official Development Assistance (ODA) 2015-2019
- 17A Regional distribution of aid to developing countries (ODA) 2015-2019
- 17B Regional distribution of aid to developing countries (ODA) 2015-2019
- 18 ODA by instrument in 2015-2019
- 19 Breakdown by aid mechanism for 2015-2019
- 20 Evolution of the Transfer Agreements by DG for 2015-2019
- 21 Budget support as a share of total expenditure in 2019 - Disbursements
- 22 Breakdown of indirect management as part of management modes in 2019 - Disbursements
- 23 Third countries as part of indirect management in 2019 - Disbursements
- 24 International organisations as part of indirect management in 2019 - Disbursements
- 25 Member States agencies / Non Member States agencies as part of indirect management in 2019 - Disbursements

**The Annual Report financial annex presents analysis of the implementation of the EU Trust Funds in the following tables:**

- TF 1 Overview of incoming contributions (disbursements from contributors)
- TF 2A Overview of committed and disbursed amounts
- TF 2B Proportion of Trust Funds assistance used for Official Development Aid (ODA) in 2019
- TF 3A Sectoral breakdown of Trust Fund Africa
- TF 3B Regional breakdown of Trust Fund Africa
- TF 4 Sectoral breakdown of Trust Fund Békou
- TF 5 Sectoral breakdown of Trust Fund Colombia
- TF 6 Sectoral breakdown of Trust Fund Madad

**Note: All amounts are displayed in EUR millions.**

## 6.2 EU External Investment Plan Blending in 2019

### 6.2.1 Introduction to EU External Investment Plan Blending Tables

Section 4.2.2. of this report (see Part I of this SWD) gives an overview of the EU's use of blending as a way of financing development projects. Blending combines grants from the EU with loans and other types of financing from development banks and other public and private investors.

Blending is one of the cornerstones of the EU External Investment Plan (EIP), a major EU initiative. The EIP was created in 2017 to scale up investment in Sub-Saharan Africa and the EU Neighbourhood.

The Plan has a financing arm, the European Fund for Sustainable Development (EFSD), amounting to EUR 4.6 billion.

Of this, EUR 3.1 billion is for blending projects, and the remaining amount is for the EFSD guarantee. The tables B1.1, B1.2 and B1.3 that follow give figures for blending projects which the EU approved in 2019. For the Plan's two main target regions: Sub-Saharan Africa and the EU Neighbourhood. The tables show:

- how much the EU contributed towards blending projects
- how much investment the projects are expected to generate (leverage)
- what form the EU's contributions take (four kinds)
- what areas of the economy the projects focus on (six areas).

A final table (B2) shows the share of total EU contributions allocated to least-developed and middle- and high-income countries.

### 6.2.2 EU External Investment Plan Blending Tables

#### 1. Blending projects approved in 2019

##### B1.1. Overall EU contribution and leverage (EUR)

	Sub-Saharan Africa	EU Neighbourhood	Total
EU contribution (EUR)	394 million	579 million	973 million
Investment leveraged (EUR)	2.9 billion	6.7 billion	9.6 billion
Number of projects	24	33	57

##### B1.2. EU contributions by type of support

Sub-Saharan Africa 2019

Support	EU Contribution (EUR million)
Technical assistance	58.8
Investment grant	296.5
Equity	8.9
Guarantee	17.6
Total without fees	381.8
Fees	11.9
Total with fees	<b>393.7</b>

EU Neighbourhood 2019

Support	EU Contribution (EUR million)
Technical assistance	110.0
Investment grant	382.3
Equity	48.6
Guarantee	21.0
Total without fees	561.9
Fees	17.0
Total with fees	<b>578.8</b>

### B1.3. EU contributions by sector

#### Sub-Saharan Africa

2019

Sector	EU Contribution (EUR million)
Agriculture	14.9
Energy	138.2
Environment	94.0
Private Sector	19.0
Transport	127.7
<b>Total</b>	<b>393.7</b>

#### EU Neighbourhood

2019

Sector	EU Contribution (EUR million)
Social (education, social, urban/social)	38.6
Energy	100.1
Environment, water & sanitation	148.8
Private Sector	208.1
Transport	83.1
<b>Total</b>	<b>578.6</b>

### B2. Blending projects in Sub-Saharan Africa approved since 2017 - EU contributions by country income category

Country category	% share of total EU contributions
Least developed (LDC)	77.6
Middle-income	22.0
High-income	0.4
