6. RESULTS ANNEXES

6.1. Methodological basis for selected results from the EU Results Framework and the IPA Results Framework

This is the first year of implementation of the Neighbourhood, Development and International Cooperation Instrument-Global Europe (NDICI-Global Europe) which is implemented by Directorates-General INTPA, NEAR (for Neighbourhood) and FPI. The main tool for monitoring and reporting results to be achieved by NDICI-Global Europe is the Global Europe Results Framework (GERF)¹³², which was launched in 2022. It is also the first year of implementation of the Instrument for Pre-accession (IPA III), whose monitoring and reporting basis is part of a Staff Working Document to be published by the end of 2022. Because it takes time for results to materialise, there are no results to report yet for NDICI-Global Europe and IPA III.

By the same token, results achieved with the instruments financed by the 2014-2020 Multiannual Financial Framework (MFF) and managed by the Directorates-Generals INTPA and NEAR will continue to materialise for some years still. These results will continue to be reported upon using the EU Results Framework (EURF)¹³³ for INTPA and NEAR Neighbourhood regions, and the Instrument for Pre-accession Performance framework (IPA PF) for the Enlargement region, which were introduced in 2018 for that purpose.

This annex describes the methodological basis for results presented in the sections 'Selected Results' of chapter 3 and in this annex.

6.1.1. Coverage of the corporate results frameworks

EU RF and GERF

It follows that chapter 3 of the present Annual Report includes results from the EURF, covering ongoing or closed EU-funded interventions managed by INTPA and NEAR (ENI) that started between January 2014 and July 2020. Specifically, chapter 3 draws upon indicators included in level 2 of the framework, as explained below.

Table 2 presents the new GERF indicators and their progress at the end of year 1 of implementation (financial execution) of NDICI-Global Europe. As explained above, no operational results have materialised due to the time required for results to occur. Therefore, all indicators report zero results.

IPA PF

Chapter 3 of the present Annual Report includes results from the IPA PF, covering ongoing or closed EU-funded interventions managed by NEAR (Enlargement) that started between January 2014 and July 2020. Chapter 3 draws upon indicators included in level 2 of the framework, as explained below.

¹³² SWD(2022) 22 final of 25 January 2022.

¹³³ European Commission's Staff Working Document (SWD)(2018) 444, 'A revised EU international cooperation and development results framework, the Sustainable Development Goals of the 2030 Agenda for Sustainable Development and the New European Consensus on Development'.

6.1.2. Structure of the corporate results frameworks

EU RF and GERF

Both corporate results frameworks are structured around three levels of results. At the core of the framework, a set of respectively 30 (EURF) and 36 (GERF) indicators at output and outcome level (Level 2) measure results achieved by EU-funded projects and programmes.

Level 1 corresponds to development progress in partner countries; that is, the medium- and long-term development impact achieved in partnership and collaboration with others. Impacts reflect the operational context in which EU external assistance is provided.

Data source Level 1: Internationally available indicators, as much as possible from the SDG database.

Level 2 focuses on development outcomes and outputs to which EU-funded interventions contribute in collaboration with partner governments and other funding providers. In line with the principles of aid effectiveness and effective development cooperation that emphasise partnerships and country ownership, results at this level are presented on a contribution basis. Rather than results being based on the share of funding provided by the EU, they represent the combined efforts of a variety of partners, including the EU, Member States, partner country governments and public institutions, local communities, international finance agencies, CSOs, non-profit entities and private companies. Data collection is guided by specific methodological notes¹³⁴.

Data source Level 2: Results data are drawn from the reports of EU implementation partners (i.e., partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs).

Level 3 focuses on the mainstreaming of policy priorities, as measured by budgetary commitments directed at specific cross-cutting issues (e.g., human development, gender, or nutrition), and focuses on organisational financial data. Some of the indicators have organisational targets.

Data source level 3: Internal financial monitoring systems.

IPA PF

The IPA PF is also structured around three levels of results. At the core of the framework, a set of 36 indicators at output and outcome level (Level 2) measure results achieved by EU-funded projects and programmes.

Level 1 corresponds to development progress in IPA beneficiaries; that is, the medium- and long-term development impact achieved in partnership and collaboration with others. Impacts reflect the operational context in which EU external assistance is provided.

Level 2 focuses on development outcomes and outputs to which EU-funded interventions contribute to in collaboration with partner governments and other funding providers. In line with the principles of aid effectiveness and effective development cooperation that emphasise partnerships and country ownership, results at this level are presented on a contribution basis. Rather than results being based on the share of funding provided by the EU, they represent the combined efforts of a variety of partners, including the EU, Member States, partner country governments and public institutions,

¹³⁴ Methodological notes are available online <https://europa.eu/capacity4dev/eu-rfi>

local communities, international finance agencies, CSOs, non-profit entities and private companies. Data collection is guided by specific methodological notes¹³⁵.

Data source Level 2: Results data are drawn from the reports of EU implementation partners (i.e., partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs).

Level 3 focuses on the mainstreaming of policy priorities, as measured by budgetary commitments directed at specific cross-cutting issues (e.g., human development, gender), and focuses on organisational financial data. Some of the indicators have organisational targets.

Data source level 3: Internal financial monitoring systems.

6.2. Level 2 indicators: Reporting on partner country results supported by the EU

EU RF and GERF

Selection criteria: Results were collected from a set of ongoing and completed interventions¹³⁶ that started between 1 January 2014 and 1 July 2021, with an EU contribution of EUR 750 000 or more. This year over 3 000 projects and programmes reported latest results information, out of which 1 900 projects and programmes contributed to at least one of the corporate indicators. The sample of ongoing interventions continues to expand over time.

As in previous years, the results reported cannot be interpreted as providing a full picture of the interventions financed by the EU in the countries concerned.

Methodology notes for EU Results Framework indicators: Methodology notes are available for each EU Results Framework indicator to ensure that data from the various reporting sources could be aggregated consistently. These notes provide definitions and data sources clearly explaining what type of interventions should be included when reporting against an indicator. These notes, for both the original and the revised results frameworks, can be found at <http://capacity4dev.ec.europa.eu/eu-rfi>.

Data: As mentioned in Annex 1, results data is drawn from the reports of EU implementation partners (i.e., partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs). These organisations use data collected from a variety of sources, such as the management information system of partner countries, the individual project monitoring frameworks of implementation partners and representative surveys.

Reporting: The 2018-2021 figure reports a cumulative number, including results reported since the last results reporting exercise (2018). The numbers are cumulated with careful consideration of

¹³⁵ Methodological notes are available upon request.

¹³⁶ The interventions considered were financed using the following instruments: the European Development Fund (EDF); the Development Cooperation Instrument (DCI); the programmable part of the Instrument contributing to Stability and Peace (IcSP) under Art. 5; the European Instrument for Democracy and Human Rights (EIDHR); the Instrument for Nuclear Safety Cooperation; the Instrument for Greenland; and the European Neighbourhood Instrument (ENI).

potential double counting across projects and programmes and across years. The approach taken is to err on the side of safety, so any potentially double counted results are excluded from the results reported.

A common feature of all Level 2 indicators is that the results reported have been calculated using a contribution-based approach. This means that where an intervention has been financed by the EU jointly with other funders – such as partner country governments or other donors – the overall results of the collective effort are reported, rather than those linked to the share of funding provided by the EU specifically.

EU RF indicator 2.30 ‘Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency’ is an exception in terms of scope and data collection. In addition to the interventions included in the exercise, this indicator draws on all countries with an ongoing EU budget support contract.

EU RF indicators 2.9 ‘Number of individuals with access to electricity with EU support through a) new access, b) improved access’, 2.10 ‘Renewable energy generation capacity installed with EU support (MW)’ and 2.21 ‘Greenhouse gas emissions avoided with EU support (tonnes CO₂eq)’ also include reporting by the EU–Africa Infrastructure Trust Fund (EU-AITF). EU RF 2.9 reports inferred figures, which were calculated using the KfW model for estimating access using electricity generation capacity. EU RF 2.10 and EU RF 2.21 report expected results.

Given its use in the Gender Action Plan III (GAP III), the new GEF indicator 2.37 ‘Number of people benefitting from EU-funded interventions to counter sexual and gender-based violence’ is reported upon already this year. Data was collected to inform GAP III progress reporting and the GEF indicator is presented in the present results report.

Results by sex of beneficiaries: The SWD(2018) 444 mentions that, where possible, results are to be disaggregated by sex. These results are presented in Annex 2. Where this disaggregation has not been provided, it is either because this was not relevant for the indicator in question (e.g., EU RF 2.4 ‘Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support’) or because the data were not available. Due to data availability at intervention level, the sum of sex-disaggregated results may not equal the total results figures.

Results by country: When presenting results broken down by country, figures are reported according to the country where the result was achieved. While efforts have been made to capture this detailed level of reporting as far as possible, data were not always available at this level; for example, in the case of multi-country regional interventions where country-level results were not reported.

Where the EU has funded interventions in overseas countries and territories, results achieved are reported at this level. This approach is also taken where EU RF indicators measure the number of countries supported in a specific sector.

Rounding of figures: The results estimates have been rounded using the following method:

- Estimates of 10 000 or more – rounded to the nearest 1 000;
- Estimates between 1 000 and 10 000 – rounded to the nearest 100;
- Estimates between 100 and 1 000 – rounded to the nearest 10;
- Estimates that are less than 100 – no rounding.

Quality: The data are subjected to an extensive quality assurance process to ensure that:

- The data sources are reliable;
- The link between the indicators from the monitoring system of the intervention and the indicators from the EU RF is robust; and
- The individuals who have benefited from the same intervention over different years, and/or from different interventions ending and/or ongoing in the same year, are only counted once.

However, given the great variety of data sources used, the data quality may vary.

Joint reporting with EU Trust Fund for Africa interventions: As part of the 2018 revision of the results framework, efforts have been made to harmonise indicator methodologies to enable joint reporting with other monitoring systems. Four indicators can be reported together with results from EU Trust Fund for Africa (EU TF) interventions. Thus, in addition to the figures collected through the EU RF, reporting includes figures reported through the EU TF. The EU RF indicators that feature data via joint reporting are:

- EU RF 2.15 Number of people who have benefited from institution- or workplace based vocational education and training (VET)/skills development interventions supported by the EU (window: Horn of Africa, Sahel and Lake Chad);
- EU RF 2.17 Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support (windows: Horn of Africa, Sahel and Lake Chad, North of Africa);
- EU RF 2.18a Number of migration management or forced displacement strategies or policies: a) developed/revised (window: North of Africa); and
- EU RF 2.29 Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights (window: North of Africa).

IPA PF

Selection criteria: Results were collected from a set of ongoing and completed interventions¹³⁷ that started between 1 January 2014 and 1 July 2020, with an EU contribution of EUR 750 000 or more. This year, over 510 projects and programmes reported latest results information, out of which 104 projects and programmes contributed to at least one of the corporate indicators. The sample of ongoing interventions continues to expand over time.

The total EU allocation for the interventions that were able to report against the IPA PF indicators was EUR 1 815.3 million. Of this amount: 26.3 % was allocated to human rights, equality, and refugee support (health, education, inclusivity); 25.8 % was allocated to Water and sanitation Utilities; Road Infrastructure and Urban Development; 16.1 % in the competitiveness area (business policy and administration, small and medium-sized enterprises, job creation); 12.9 % was allocated in the area of public administration reform (Public sector policy and administrative management, public finance management and decentralisation and support to subnational government areas); and 12 % was allocated to legal and judicial development, rule of law (security system management and reform, and anticorruption).

¹³⁷ Financed by the Instruments for Pre-Accession I and II

As in previous years, the results reported cannot be interpreted as providing a full picture of the interventions financed by the EU in the countries concerned.

Methodology notes for IPA Performance Framework indicators: Methodology notes are available for each IPA Performance Framework indicator to ensure that data from the various reporting sources could be aggregated consistently. These notes provide definitions and data sources clearly explaining what type of interventions should be included when reporting against an indicator. These notes are available upon request.

Data: As mentioned in Annex 1, results data is drawn from the reports of EU implementation partners (i.e., partner countries, international organisations, Member States' development agencies, international financial institutions and NGOs). These organisations use data collected from a variety of sources, such as the management information system of partner countries, the individual project monitoring frameworks of implementation partners and representative surveys.

Reporting: The 2018-2021 figure reports a cumulative number, including results reported since the last results reporting exercise. The numbers are cumulated with careful consideration of potential double counting across projects and programmes and across years. The approach taken is to err on the side of safety, so any potentially double counted results are excluded from the results reported.

A common feature of all Level 2 indicators is that the results reported have been calculated using a contribution-based approach. This means that where an intervention has been financed by the EU jointly with other funders – such as partner country governments or other donors – the overall results of the collective effort are reported, rather than those linked to the share of funding provided by the EU specifically.

Results by IPA beneficiary: When presenting results broken down by IPA beneficiary, figures are reported according to the beneficiary where the result was achieved. While efforts have been made to capture this detailed level of reporting as far as possible, data were not always available at this level; for example, in the case of multi-country regional interventions where country-level results were not reported (in this case, results are presented under the label 'Western Balkans regional results').

Quality: The data are subjected to an extensive quality assurance process to ensure that:

- The data sources are reliable; and
- The link between the indicators from the monitoring system of the intervention and the indicators from the IPA PF is robust.

However, given the great variety of data sources used, the data quality may vary.

6.3. Level 1 indicators: Reporting on development progress in partner countries

This annex presents the latest figures for the level 1 indicators in the EU Results Framework.

Data sources and coverage: The statistics used to report on the indicators were taken from international data sources (presented in Table 1). They refer to data available in April 2022. The figures reported are world figures, considering all countries included in reporting by international data sources (United Nations (UN) database on Sustainable Development Goals, World Bank data, etc.). For five indicators, total aggregates were not available.

Table 1: Latest figures for Level 1 indicators

EU RF indicator – Level 1	Latest figure	Data source
1.1 Proportion of population below the international poverty line	8.6 % (2018)	Global SDG Indicators Database
1.2 Prevalence of moderate or severe food insecurity in the population	26.6 % (2019)	Global SDG Indicators Database
1.3 Prevalence of stunting among children under five years of age	22 % (2020)	Global SDG Indicators Database
1.4 Value added of agriculture as a percentage of GDP, including forestry and fishing	4.3 % (2020)	World Bank World Development Indicators
1.5 Universal Health Coverage index	68 (2019)	Global SDG Indicators Database
1.6 Adolescent birth rate per 1 000 adolescents aged 15–19 years	41.2 (2020)	Global SDG Indicators Database
1.7 Literacy rate of 15- to 24-year-olds	92 % (2020)	World Bank World Development Indicators
1.8 Proportion of seats held by women in national parliaments	26.2 % (2022)	Global SDG Indicators Database
1.9 Proportion of population using safely managed drinking water services	74 % (2020)	Global SDG Indicators Database
1.10 Proportion of population using safely managed sanitation services	54 % (2020)	Global SDG Indicators Database
1.11 Proportion of population with access to electricity	90.5 % (2020)	Global SDG Indicators Database
1.12 Renewable energy share of the total final energy consumption	17.7 % (2019)	Global SDG Indicators Database
1.13 Annual growth rate of real GDP per capita	-4.4 % (2020)	Global SDG Indicators Database
1.14 Proportion of employed population below the international poverty line, age 15+	6.9 % (2021)	Global SDG Indicators Database
1.15 World Bank Doing Business Distance to Frontier score	63 (2019)	World Development Indicators

EU RF indicator – Level 1	Latest figure	Data source
1.16 Export of goods and services as a percentage of GDP	26.5 % (2020)	World Bank Worldwide Governance indicators
1.17 Proportion of youth (aged 15–24 years) not in education, employment or training	22.3 % (2019)	Global SDG Indicators Database
1.18 Passenger and freight volumes on roads (tonne-kilometres)	Freight: 26 778 363 800 000 (2020) Passenger: 31 400 105 000 000 (2020)	Global SDG Indicators Database
1.19 Growth rates of household expenditure or income per capita among the bottom 40 % of the population and the total population	No world aggregate available	Global SDG Indicators Database
1.20 Number of refugees and asylum seekers of concern to the UNHCR by situation	Total Refugees (incl. refugee like situation): 20 661 855 (2020) Asylum seekers: 4 140 106 (2020)	UNHCR (The UN Refugee Agency)
1.21 Direct economic loss in relation to global GDP, damage to critical infrastructure and number of disruptions to basic services, attributed to disasters	No world aggregate available	Global SDG Indicators Database
1.22 Domestic material consumption per capita (tonnes), and domestic material consumption by GDP (kg per constant 2010 USD)	Per GDP: 1.1 (2019) Per Capita: 12.4 (2019)	Global SDG Indicators Database
1.23 CO ₂ emission per unit of value added (kg of CO ₂ per constant 2015 USD)	0.434 (2019)	Global SDG Indicators Database
1.24 Coverage of protected areas in relation to marine areas	19.6 % (2021)	Global SDG Indicators Database
1.25 Proportion of important sites for terrestrial and freshwater biodiversity that are covered by protected area	Freshwater: 44.2 % (2021) Terrestrial: 44 % (2021)	Global SDG Indicators Database
1.26 Voice and Accountability score	No world aggregate available	Worldwide Governance indicators
1.27 Government Effectiveness score	No world aggregate available	Worldwide Governance indicators
1.28 Existence of independent national human rights institutions in	41.6 % (2020)	Global SDG Indicators Database

EU RF indicator – Level 1	Latest figure	Data source
compliance with the Paris Principles (A accredited) ¹³⁸		
1.29 Rule of Law score (as measured by the World Bank Worldwide Governance indicators)	No world aggregate available	Worldwide Governance Indicators
1.30 Number of victims of intentional homicide per 100 000 population	2.1 Female (2018) 9.3 Male (2018)	Global SDG Indicators Database
1.31 Total government revenue as a proportion of GDP	32.8 % (2020)	Global SDG Indicators Database

6.4. Latest results for Level 3 indicators

6.4.1 Latest figures for Level 3 indicators – NDICI-Global Europe

This Annex presents the latest figures for indicator from level 3 of the Global Europe Results Framework which present policy priorities. The sources of data are the European Commission’s internal monitoring systems.

All indicators presented in this section have been calculated with reference to the calendar year 2021. In terms of coverage, they cover financing from NDICI-Global Europe. This also holds for payments where only NDICI-Global Europe funding was considered. Given that this is year 1 of NDICI-Global Europe financial execution, payments have been zero, or low in several sectors. This is due to ongoing disbursements from funds managed under MFF 2014-2020.

¹³⁸ Proportion of countries with independent National Human Rights Institutions in compliance with the Paris Principles (%)

Table 2: Latest figures for Level 3 indicators – NDICI-Global Europe Year 1

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount (EUR) ¹³⁹	%
GERF 3.1a Amount and share of EU-funded external assistance contributing to: (a) climate change (adaptation and mitigation)	1.996 billion	18.5	30	26 million	2.1
GERF 3.1b Amount and share of EU-funded external assistance contributing to: (b) protecting biodiversity	530 million	4.9	2024-2025: 7.5 2026-2027: 10 ¹⁴⁰	0	-
GERF 3.1c Amount and share of EU-funded external assistance contributing to: (c) combating desertification	249 million	2.3	No target defined	0	-
GERF 3.1d Amount and share of EU-funded external assistance contributing to: (d) protecting the environment (Aid to Env)	2.533 billion	23.5	No target defined	45 million	3.5
GERF 3.2 Amount and share of EU-funded external assistance directed towards digitalisation ¹⁴¹	1.951 billion	18.1	10 ¹⁴²		
GERF 3.3 Amount and share of EU-funded external assistance contributing to strengthening investment climate	4.978 billion	46.1	No target defined	176 million	13.7

¹³⁹ Given year 1 of NDICI-Global Europe financial execution, payments have been zero, or low in several sectors.

¹⁴⁰ These targets refer to the overall Multiannual Financial Framework.

¹⁴¹ Numbers undergoing data quality checks.

¹⁴² Joint Communication The Global Gateway (JOIN(2021) 30 final) set a target of approximatively 10 %.

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount (EUR) ¹³⁹	%
GERF 3.4a Amount and share of EU-funded external assistance contributing to: (a) aid for trade	1.704 billion	15.8	No target defined	0	-
GERF 3.4b Amount and share of EU-funded external assistance contributing to: (b) aid for trade to LDCs	289 million	17 ¹⁴³	No target defined	0	-
GERF 3.4c Amount and share of EU-funded external assistance contributing to: (c) trade facilitation	6 million	0.1	No target defined	0	-
GERF 3.5a Leverage of EU blending and guarantee operations financed by EU external assistance, measured as: (a) Investment leverage ratio	21.2 (leverage)	-	No target defined	-	-
GERF 3.5b Leverage of EU blending and guarantee operations financed by EU external assistance, measured as: (b) Total eligible financial institution financing leverage ratio	5.4 (leverage)	-	No target defined	-	-
GERF 3.5c Leverage of EU blending and guarantee operations financed by EU external assistance, measured as: (c) Private financing leverage ratio	0.17 (leverage)	-	No target defined	-	-
GERF 3.7 Amount and share of EU-funded external assistance directed towards migration and forced displacement-related interventions	1.511 billion	14.0	Indicatively 10 %	69 million	5.3
GERF 3.8 Amount and share of EU-funded external assistance directed towards fragile states	2.689 billion	24.9	No target defined	150 million	11.6

¹⁴³ Percentages in this column were calculated relative to the total commitments in 2021. Here we are calculating aid for trade to LDCs relative to all aid for trade in 2021.

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount (EUR) ¹³⁹	%
GERF 3.9 Share of EU-funded external interventions responding to situations of a new and/or emerging crisis ¹⁴⁴	-	82	No target defined		
GERF 3.10 Amount and share of EU-funded external assistance directed towards supporting social inclusion and human development	4.285 billion	39.7	20 ¹⁴⁵	770 million	59.7
GERF 3.11 Amount and share of EU-funded external assistance directed towards nutrition	816 million		EUR 2.5 billion EU pledge for international cooperation with a nutrition objective consisting of EUR 1.4 billion of development cooperation funds committed and EUR 1.1 billion of humanitarian funds committed (2021-2024)	0	-
GERF 3.12 Amount and share of EU-funded external assistance directed towards education ¹⁴⁶	450.723 million	5.4	At least 10 %		

¹⁴⁴ GERF 3.9 Share of EU-funded external interventions responding to situations of a new and/or emerging crisis is only informed by FPI.

¹⁴⁵ The target refers to 20 % of ODA related expenditures. The indicator measures EU-funded external assistance including non-ODA.

¹⁴⁶ Unlike other GERF 3 indicators, this indicator is by construction limited to DG INTPA. It measures the sole DG INTPA performance for all instruments managed by DG INTPA, including its share of the ERASMUS programme. As of 01/07/22, it has not been made publicly available yet in DG INTPA's reporting products.

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount (EUR) ¹³⁹	%
GERF 3.13 Number and share of EU- external interventions promoting gender equality and women's empowerment ¹⁴⁷	236 actions ¹⁴⁸	78.1	85 % of new actions to score G1 or G2	-	-
GERF 3.14 Number and share of EU-funded external interventions promoting disability inclusion	77 actions ¹⁴⁹	25.5	No target defined	-	-
GERF 3.16 Amount and share of EU-funded external assistance qualifying as ODA	10.749 billion	99.6	At least 93 %	1.280 billion	99.3

¹⁴⁷ Provisional numbers, will be subject revision.

¹⁴⁸ Unit of measure are actions: 236 out of 302 new actions in 2021.

¹⁴⁹ Unit of measure are actions: 77 actions out of 302 new actions in 2021.

6.4.2 Level 3: Reporting on policy mainstreaming as measured by budgetary commitments

EU RF and GEF

Level 3 indicators report on financial flows in 2021 and include all funds managed by the new financing instrument NDICI-Global Europe. Level 3 reporting excludes funds under the previous MFF (2014-2020), which were a relevant source especially for payments in 2021 - i.e., the presentation of payments does not present all payments made in 2021. Given the budgetary cycle, payments were low or zero for NDICI-Global Europe funds.

Some of the Level 3 indicators have associated spending targets, provided in the legal basis to the NDICI-Global Europe (e.g., climate, social inclusion and human development, migration and forced displacement) and a gender mainstreaming target. In some cases, the priority is derived from formal EU policy commitments endorsed by the Council (e.g., Gender Action Plan III) or international commitments made by the EU (e.g., nutrition).

All ten Level 3 indicators from the 2018 EURF have been included in the GEF, with a couple of minor adjustments (i.e., two indicators from the 2018 EURF have been merged, and the methodology to calculate the indicator on human development has been updated). This confirms the stability of the EU commitment to providing support in these areas.

Seven new indicators have been added to monitor spending directed towards digitalisation, reform implementation, migration-related interventions, crisis-response, education, disability inclusion, and inequality reduction.

For two indicators, methodologies are still under development:

- **GEF 3.6** Number and share of EU-funded external interventions supporting the implementation of political, economic and social reforms and joint agreements in partner countries; and
- **GEF 3.15** Amount and share of EU-funded external assistance directed towards reducing inequalities.

In the case of GEF 3.15, a marker for inequality will become available as of 2022.

IPA PF

Level 3 indicators report on financial flows in 2021 and include all funds managed by the new financing instrument IPA III. Level 3 reporting excludes funds under the previous MFF (2014-2020), which were a relevant source especially for payments in 2021 - i.e., the presentation of payments does not present all payments made in 2021. Given the budgetary cycle, payments were low or zero for IPA III funds.

Some of the Level 3 indicators have associated spending targets, provided in the legal basis IPA III (e.g., climate, biodiversity) and a gender mainstreaming target. For gender, the priority is derived from formal EU policy commitments endorsed by the Council (e.g., Gender Action Plan III).

For two indicators, methodologies are still under development:

- Number and share of EU-funded external interventions supporting the implementation of political, economic and social reforms and joint agreements in partner countries; and
- Amount and share of EU-funded external assistance directed towards reducing inequalities. In this case, a marker for inequality will become available as of 2022.

6.5 Overview of results

6.5.1 Overview of results for EU RF and GERF

Level 2 indicators

Table 3 shows the latest aggregated results for EU RF Level 2 indicators. The data was compiled from completed and ongoing EU-funded interventions financed under MFF 2014-2020. A substantial number of these intervention are still ongoing and continue to produce results.

Table 3: EU RF Level 2 – Latest aggregated results achieved with EU support, 2018–2021^(a)

No	EU RF indicator	2018-2021
2.1	Number of food-insecure people receiving EU assistance ^(b)	28 200 000
2.2	Number of women of reproductive age, adolescent girls and children under five reached by nutrition-related interventions supported by the EU ^(b)	18 800 000
2.3	Number of smallholders reached with EU-supported interventions aimed to increase their sustainable production, access to markets and/or security of land ^(b)	21 100 000
2.4	Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support (ha)	2 701 000
2.5	Number of one-year-olds fully immunised with EU support	64 424 000
2.6	Number of women of reproductive age using modern contraception methods with EU support	30 674 000
2.7a	Number of students enrolled in education with EU support: a) primary education	38 072 000
2.7b	Number of students enrolled in education with EU support: b) secondary education	8 259 387
2.8	Number of individuals with access to improved drinking water source and/or sanitation facility with EU support	17 093 000
2.9	Number of individuals accessing electricity with EU support through: a) new access, b) improved access ^{(c)(d)}	29 765 000
2.10	Renewable energy generation capacity installed with EU support (MW) ^(d)	31 000
2.11	Number of jobs supported/sustained by the EU	560 000
2.12	Number of countries supported by the EU to strengthen investment climate	121

No	EU RF indicator	2018-2021
2.13a	Number of beneficiaries with access to financial services with EU support: a) firms	792 000
2.13b	Number of beneficiaries with access to financial services with EU support: b) individuals	2 622 000
2.14	Number of quality schemes adopted by economic operators with EU support	33 000
2.15	Number of people who have benefited from institution- or workplace-based VET/skills development interventions supported by the EU	1 969 000
2.16	Total length of road supported by the EU through: a) construction, b) rehabilitation, c) maintenance (km) ^(e)	79 000
2.17	Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support	20 430 000
2.18a	Number of migration management or forced displacement strategies or policies: a) developed/revised with EU support	81
2.18b	Number of migration management or forced displacement strategies or policies: b) under implementation with EU support	65
2.19a	Number of countries and cities with climate change and/or disaster risk reduction strategies: a) developed	234
2.19b	Number of countries and cities with climate change and/or disaster risk reduction strategies: b) under implementation with EU support	125
2.20	Number of micro, small and medium enterprises applying sustainable consumption and production practices with EU support	24 000
2.21	Greenhouse gas emissions avoided with EU support (tonnes CO ₂ e) ^(d)	95 871 000
2.22a	Marine areas under: a) protection with EU support (km ²) ^(f)	543 000
2.23a	Areas of terrestrial and freshwater ecosystems under: a) protection with EU support (ha)	75 806 000
2.23b	Areas of terrestrial and freshwater ecosystems under: b) sustainable management with EU support (ha)	68 975 000
2.24	Number of countries supported by the EU to conduct elections and/or improve their electoral process	56
2.25	Number of government policies developed or revised with civil society organisation participation through EU support	1 600
2.26	Number of victims of human rights violations directly benefiting from assistance funded by the EU	129 000
2.27	Number of people directly benefiting from legal aid interventions supported by the EU	5 831 000

No	EU RF indicator	2018-2021
2.28	Number of individuals directly benefiting from EU-supported interventions that specifically aim to support civilian post-conflict peacebuilding and/or conflict prevention	988 000
2.29	Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights	11 400
2.30	Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency	160
2.37 (GERF)	Number of people benefitting from EU-funded interventions to counter sexual and gender-based violence	16 919 000

Table 3 Notes

^a Refers to data collected from ongoing or completed EU-funded interventions that started between January 2014 and July 2020. Figures are cumulated with the values reported last year, cleaned of double counting. Besides reporting on interventions covered by the EU RF, four indicators -EU RF 2.15, 2.17, 2.18 and 2.29- also include figures reported through the EU Trust Fund for Africa.

^b The number reported under indicator 2.1 may overlap with those for indicators 2.2 and/or 2.3. Indeed, food-insecure people may also be reached by nutrition-related interventions covered by indicator 2.2 and/or interventions aimed to increase smallholders' sustainable production, access to markets and/or security of land covered by EU RF 2.3.

^c This indicator was newly introduced in the 2018 revision of the EU RF. The value reported represents inferred access to electricity for the overall reporting period 2013–19. It currently does not include the number of individuals with access to electricity with EU support through improved access, due to data limitations. Improved access will be reported in the forthcoming years. As a result, the number of people with access to electricity (new or improved) through EU support is expected to be significantly higher.

^d These figures exceptionally include some results achieved with interventions that closed in 2014 or following years.

^e The 2018-2020 value corresponds to: a) 14 000 km constructed, b) 6 000 km rehabilitated and c) 59 000 km maintained.

^f Note that there is no entry for the EU RF indicator 2.22 'Marine areas under b) sustainable management with EU support (km²)'. This indicator was introduced in the 2018 revision of the EU results framework and the methodology is still under development, closely following the ongoing work done by the UN on SDG indicator 'Proportion of national EEZs managed using ecosystem-based approaches'.

Overview of results for GERF Level 2

Table 4 presents the new indicators from the Global Europe Results Framework, which will be used to monitor and report on results the implementation of the NDICI. As previously explained in section 6.1, results figures for year 1 of NDICI implementation are zero given the time lag for results to be produced.

Table 4: GEF Level 2 – Latest aggregated results achieved with EU support, 2021 (Year 1 of NDICI)

No	GEF indicator	Reporting year: 2021
2.1	Number of smallholders reached with EU supported interventions aimed to increase their sustainable production, access to markets and/or security of land	0
2.2	Areas of agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support	0
2.3	Number of people with access to electricity with EU support through: (a) new access, (b) improved access	0
2.4	Renewable energy generation capacity installed (MW) with EU support	0
2.5	Number of countries and cities with climate change and/or disaster risk reduction strategies: (a) developed, (b) under implementation with EU support	0
2.6	Number of Micro, Small and Medium Enterprises applying Sustainable Consumption and Production practices with EU support	0
2.7	Greenhouse Gas (GHG) emissions avoided (tonnes CO _{2eq}) with EU support	0
2.8	Marine areas under a) protection, b) sustainable management with EU support (km ²)	0
2.9	Areas of terrestrial and freshwater ecosystems under (a) protection, (b) sustainable management with EU support (km ²)	0
2.10	Number of countries supported by the EU to (a) develop and/or revise, (b) implement digital-related policies/strategies/laws/regulations	0
2.11	Number of people with access to Internet with EU support	0
2.12	Number of (a) countries supported by the EU to enhance..., (b) people supported by the EU with enhanced... access to digital government services	0
2.13	Number of (a) jobs, (b) green jobs supported/sustained by the EU	0
2.14	Number of people who have benefited from institution or workplace based VET/skills development interventions supported by the EU: (a) all VET/skills development, (b) only VET/skills development for digitalisation	0
2.15	Number of processes related to partner country practices on trade, investment and business, or promoting the external dimension of EU internal policies or EU interest, which have been influenced	0
2.16	Number of countries supported by the EU to strengthen investment climate	0
2.17	Number of beneficiaries with access to financial services with EU support: (a) firms, (b) people (all financial services), (c) people (digital financial services)	0
2.18	Total length of transport infrastructure supported by the EU (kms): (a) roads, (b) railways, (c) waterways	0
2.19	Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency	0
2.20	Number of migrants, refugees, and internally displaced people or individuals from host communities protected or assisted with EU support	0

No	GERF indicator	Reporting year: 2021
2.21	Number of migration management or forced displacement strategies or policies (a) developed/revised, or (b) under implementation with EU support	0
2.22	Number of EU-funded interventions reporting improvement of compliance of Border and Security Systems with EU /Schengen Acquis	0
2.23	Number of state institutions and non-state actors supported by the EU on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights	0
2.24	Number of people directly benefiting from EU supported interventions that specifically aim to support civilian post-conflict peace-building and/or conflict prevention	0
2.25	Number of people directly benefiting from legal aid interventions supported by the EU	0
2.26	Number of countries supported by the EU to conduct elections and/or improve their electoral process	0
2.27	Number of electoral processes and democratic cycles supported, observed and followed by means of Election Observation Missions	0
2.28	Number of grassroots civil society organisations benefitting from (or reached by) EU support	0
2.29	Number of government policies developed or revised with civil society organisation participation through EU support	0
2.30	Number of victims of human rights violations directly benefiting from assistance funded by the EU	0
2.31	Number of countries which have benefitted from EU support to strengthen their social protection systems	0
2.32	Number of food insecure people receiving EU assistance	0
2.33	Number of women of reproductive age, adolescent girls and children under 5 reached by nutrition-related interventions supported by the EU	0
2.34	Number of women of reproductive age using modern contraception methods with EU support	0
2.35	Number of 1-year olds fully immunised with EU support	0
2.36	Number of students enrolled in education with EU support: (a) primary education, (b) secondary education, (c) tertiary education	0
2.37	Number of people benefitting from EU-funded interventions to counter sexual and gender-based violence	0
2.38	Number of people with access to improved drinking water source and/or sanitation facility with EU support	0
2.39	Number of people directly benefiting from EU supported interventions that aim to reduce social and economic inequality	0

6.5.2 Overview of results for IPA PF

Level 2 indicators

The table 5 (below) shows the latest aggregated results for IPA PF Level 2 indicators. The data was compiled from completed and ongoing EU-funded interventions financed under MFF 2014-2020. A substantial number of these intervention are still ongoing and continue to produce results.

Table 5: EU RF Level 2 – Latest aggregated results achieved with EU support, 2018–2021^(a)

IPA PF	Cumulative Values 2021
2,01	
Number of electoral recommendations (of the International Election Observation missions (EOM) done by the OSCE/ODIHR or the EU EOM (case of Kosovo)) a) followed up and/or b) implemented with EU Support	153
2,02	
Number of legal/administrative acts to enhance the effectiveness, accountability and/or transparency of the functioning of democratic institutions a) adopted and/or b) implemented by national parliaments with EU support	0
2,03a	
Number of legal/administrative acts/measures a) adopted and/or b) implemented with EU support with the objective of increasing independence and impartiality, and/or accountability, and/or professionalism and/or competence and/or efficiency of the national justice system.	0
2,03b	
Number of legal/administrative acts/measures a) adopted and/or b) implemented with EU support with the objective of increasing independence and impartiality, and/or accountability, and/or professionalism and/or competence and/or efficiency of the national justice system.	1
2,04a	
Number of a) judges, b) prosecutors, c) lawyers and d) court staff trained with EU support on European standards and EU acquis	460
2,04b	
Number of a) judges, b) prosecutors, c) lawyers and d) court staff trained with EU support on European standards and EU acquis	4
2,04c	
Number of a) judges, b) prosecutors, c) lawyers and d) court staff trained with EU support on European standards and EU acquis	10
2,05a	
Number of security sector reforms that are compliant with human rights standards a) developed, and/or b) under implementation with EU support	1
2,06a	
Number of anticorruption policies (incl. preventive/repressive measures) i) adopted and/or ii) implemented with EU support	0
2,06b	
Number of anticorruption policies (incl. preventive/repressive measures) i) adopted and/or ii) implemented with EU support	1
2,08	
Number of EU funded interventions reporting improvement in quality and/or availability of sex-disaggregated/gender specific statistics through EU support	1
2,09	

IPA PF	Cumulative Values 2021
Number of countries having i) adopted and/or ii) implemented the legal framework for the protection, promotion and/or enforcement of human/fundamental rights (including freedom of expression and Media, freedom of assembly and freedom of association and non-discrimination and rights of minorities) with EU support	7
2,10	
Number of initiatives led by civil society and supported by the EU	6
2,11	
Number of public policies developed and/or revised with internal and external consultations with EU support	53
2,12	
Number of EU funded sectoral interventions (Twinning, sector budget support, other types of technical assistance programmes) producing results that are consistent with horizontal public administration reform principles	8
2,13a	
Number of migration management and/or forced displacement public policies a) developed/revised, and/or b) under implementation with EU support	1
2,13b	
Number of migration management and/or forced displacement public policies a) developed/revised, and/or b) under implementation with EU support	10
2,14	
Number of migrants, forcibly displaced people or individuals from host communities protected or assisted	0
2,15a	
Number of EU funded interventions reporting improvement of compliance of Border and Security Systems with EU /Schengen Acquis	3
2,15b	
Number of EU funded interventions reporting improvement of compliance of Border and Security Systems with EU /Schengen Acquis	1
2,16a	
Number of EU funded interventions reporting improvement of state institutions capacities (a) law enforcement, b) judiciary and c) administration) involved in the prevention and fight against organised crime through EU support	7
2,16b	
Number of EU funded interventions reporting improvement of state institutions capacities b) judiciary involved in the prevention and fight against organised crime through EU support	1
2,16c	
Number of EU funded interventions reporting improvement of state institutions capacities (a) law enforcement, b) judiciary and c) administration) involved in the prevention and fight against organised crime through EU support	1
2,17a	
Number of public policies to strengthen revenue mobilisation, public financial management and/or budget transparency a) developed, and/or b) under implementation with EU support	8
2,17b	
Number of public policies to strengthen revenue mobilisation, public financial management and/or budget transparency a) developed, and/or b) under implementation with EU support	15
2,18a	

IPA PF	Cumulative Values 2021
Number of public policies to strengthen investment climate a) developed/ revised, and/or b) under implementation with EU support	19
2,18b	
Number of public policies to strengthen investment climate a) developed/ revised, and/or b) under implementation with EU support	1
2,19	
Number of quality schemes adopted by economic operators with EU support	0
2,20a	
Number of beneficiaries with access to financial services: a) firms, b) individuals	1 082 535
2,20b	
Number of beneficiaries with access to financial services: a) firms, b) individuals	37
2,21	
Number of Micro, Small and Medium Enterprises applying Sustainable Consumption and Production practices with EU support	0
2,22	
Number of direct jobs supported/ sustained by the EU	1 835 072
2,23a	
Number of public policies promoting social inclusion a) developed/ revised, and/or b) under implementation with EU support	6
2,23b	
Number of public policies promoting social inclusion a) developed/ revised, and/or b) under implementation with EU support	2
2,24	
Number of individuals directly benefiting from EU supported interventions that aim to reduce social and economic inequality	0
2,25a	
Number of public policies that promote, enforce and/or monitor the matching between labour supply and demand a) developed/ revised, and/or b) under implementation with EU support	1
2,25b	
Number of public policies that promote, enforce and/or monitor the matching between labour supply and demand a) developed/ revised, and/or b) under implementation with EU support	3
2,26	
Number of people who have benefited from VET/ skills development interventions supported by the EU for ICT skills (disaggregated by sex, region geographic and/or urban/ rural, age group)	0
2,27a	
Total length of road and/or rail supported by the EU through a) construction, b) rehabilitation, c) maintenance (kms)	27
2,28	
Number of Inland waterways and/or maritime ports supported by the EU through a) rehabilitation and modernisation, b) construction, and/or c) terminals	0
2,29	
Total length of the indicative extension of the TEN-T rail and road core network to the Western Balkans supported by the EU through a) new construction and b) rehabilitation	0
2,30	
Number of individuals with access to electricity with EU support through: a) new access, b) improved access	0

IPA PF	Cumulative Values 2021
2,31	
Renewable energy generation capacity installed (MW) with EU support	1 143
2,32a	
Number of public policies promoting digitalisation a) developed/ revised, and/or b) under implementation with EU support	2
2,32b	
Number of public policies promoting digitalisation a) developed/ revised, and/or b) under implementation with EU support	3
2,33	
Number of smallholders reached with EU supported interventions aimed to increase their sustainable production, access to market and/or security of land	29
2,34	
Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support (ha)	0
2,35a	
Number of disaster risk reduction public policies: a) developed, and/or b) under implementation with EU support	37
2,36	
Greenhouse Gas (GHG) emissions (tonnes equivalent) avoided with EU support	1 028 248

Table 5 Notes

^a Refers to data collected from ongoing or completed EU-funded interventions that started between January 2014 and July 2020. Figures are cumulated with the values reported last year, cleaned of double counting.

Latest results for Level 3 indicators

This Annex presents the latest figures for indicator from level 3 of the IPA Performance Framework which present policy priorities. The sources of data are the European Commission's internal monitoring systems.

All indicators presented in this section have been calculated with reference to the calendar year 2021. In terms of coverage, they cover financing from IPA III. This also holds for payments where only IPA III funding was considered. Given it is year 1 of IPA III financial execution, payments have been zero, or low in several sectors. This is due to ongoing disbursements from funds managed under MFF 2014-2020.

Table 6: Latest figures for Level 3 indicators – IPA III Year 1

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount ¹⁵⁰ (EUR)	%
Amount and share of EU-funded external assistance contributing to: (a) climate change (adaptation and mitigation)	506.12 million	31.9	30	0 million	0
Amount and share of EU-funded external assistance contributing to: (b) protecting biodiversity	33.1 million	2.1	2024-2025: 7.5 2026-2027: 10 ¹⁵¹	0 million	0
Amount and share of EU-funded external assistance contributing to: (d) protecting the environment (Aid to Env)	586 million	36.9	No target defined	0 million	0
Amount and share of EU-funded external assistance directed towards digitalisation	306.4 million	19.3	10 ¹⁵²	0 million	0
Amount and share of EU-funded external assistance contributing to strengthening investment climate	784.7 million	49.4	No target defined	0 million	0
Amount and share of EU-funded external assistance contributing to: (a) aid for trade	539.38 million	34	No target defined	0 million	0
Amount and share of EU-funded external assistance contributing to: (c) trade facilitation	8.89 million	0.6	No target defined	0 million	0
Amount and share of EU-funded external assistance directed towards migration and forced displacement-related interventions	46.94 million	3	No target defined	9.85 million	21.5
Amount and share of EU-funded external assistance directed towards supporting social inclusion and human development	187.14 million	11.8	20 ¹⁵³	0 million	0
Amount and share of EU-funded	15.76	1	No target	0 million	0

¹⁵⁰ Given year 1 of NDICI-Global Europe financial execution, payments have been zero, or low in several sectors.

¹⁵¹ These targets refer to the overall Multiannual Financial Framework.

¹⁵² Joint Communication The Global Gateway (JOIN(2021) 30 final) set a target of approximately 10 %.

¹⁵³ The target refers to 20 % of ODA related expenditures. The indicator measures EU-funded external assistance including non-ODA.

Indicator	Commitments 2021		Target (2021-2027)	Payments 2021	
	Amount (EUR)	%	%	Amount ¹⁵⁰ (EUR)	%
external assistance directed towards education	million		defined		
Number and share of EU- external interventions promoting gender equality and women's empowerment	48 actions ¹⁵⁴	67.6	85 % of new actions to score G1 or G2	NA	NA
Amount and share of EU-funded external assistance qualifying as ODA	1 587.6 million	100	At least 93 %	45.71 million	99.5

Table 7: Aggregated results achieved with EU support – disaggregated by IPA beneficiary

Indicator name	Aggregated Values 2021
Number of electoral recommendations (of the International Election Observation missions (EOM) done by the OSCE/ODIHR or the EU EOM (case of Kosovo)) a) followed up and/or b) implemented with EU Support	153
Western Balkans Region	153
Number of legal/administrative acts/measures b) implemented with EU support with the objective of increasing independence and impartiality, and/or accountability, and/or professionalism and/or competence and/or efficiency of the national justice system.	1
Kosovo	1
Number of a) judges, trained with EU support on European standards and EU acquis	460
Albania	454
North Macedonia	6
Number of b) prosecutors, trained with EU support on European standards and EU acquis	4
North Macedonia	4
Number of c) lawyers trained with EU support on European standards and EU acquis	10
North Macedonia	10
Number of security sector reforms that are compliant with human rights standards a) developed, with EU support	1
Turkey	1
Number of anticorruption policies (incl. preventive/repressive measures) implemented with EU support	1
Kosovo	1
Number of EU funded interventions reporting improvement in quality and/or availability of sex-disaggregated/gender specific statistics through EU support	1
Western Balkans Region	1
Number of countries having i) adopted and/or ii) implemented the legal framework for	7

¹⁵⁴ Unit of measure are actions: 48 out of 71 new actions in 2021

Indicator name	Aggregated Values 2021
the protection, promotion and/or enforcement of human/ fundamental rights (including freedom of expression and Media, freedom of assembly and freedom of association and non-discrimination and rights of minorities) with EU support	
Western Balkans Region	7
Number of initiatives led by civil society and supported by the EU	6
Western Balkans Region	6

Kosovo	2
Number of smallholders reached with EU supported interventions aimed to increase their sustainable production, access to market and/or security of land	29
Bosnia and Herzegovina	29
Number of disaster risk reduction public policies: a) developed, with EU support	37
Bosnia and Herzegovina	31
Western Balkans Region	6
Greenhouse Gas (GHG) (tonnes equivalent) emissions avoided with EU support	1 028 248
Western Balkans Region	1 028 248

6.6 Aggregated results achieved with EU support – disaggregated by sex

Table 8: Aggregated results achieved with EU support – disaggregated by sex

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.1 Number of food-insecure people receiving EU assistance	28 170 000	6 520 000	5 947 000	15 703 000
2.2 Number of women of reproductive age, adolescent girls and children under five reached by nutrition-related interventions supported by the EU	18 796 000	2 411 000	1 352 000	15 033 000
2.3 Number of smallholders reached with EU-supported interventions aimed to increase their sustainable production, access to markets and/or security of land	21 057 000	2 502 000	2 478 000	16 077 000
2.4 Agricultural and pastoral ecosystems where sustainable management practices have been introduced with EU support (ha)	2 701 000	Not applicable	Not applicable	Not applicable
2.5 Number of one-year-olds fully immunised with EU support	64 424 000			
2.6 Number of women of reproductive age using modern contraception methods with EU support	30 674 000	30 674 000		
2.7a Number of students enrolled in education with EU support: a) primary education	38 072 000	17 733 000	19 048 000	1 291 000
2.7b Number of students enrolled in education with EU support: b) secondary education	8 259 000	3 856 000	3 915 000	489 000
2.8 Number of individuals with access to improved drinking water source and/or sanitation facility with EU support	17 093 000	336 000	331 000	16 426 000
2.9 Number of individuals with access to electricity with EU support through a) new access, b) improved access ¹⁵⁵	29 765 000	Not applicable	Not applicable	Not applicable

¹⁵⁵ This data cannot be sex-disaggregated because the values are generated by a model that does not provide this information.

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.10 Renewable energy generation capacity installed with EU support (MW)	31 000	Not applicable	Not applicable	Not applicable
2.11 Number of jobs supported/sustained by the EU	560 000	Not applicable	Not applicable	Not applicable
2.12 Number of countries supported by the EU to strengthen investment climate	121	Not applicable	Not applicable	Not applicable
2.13a Number of beneficiaries with access to financial services with EU support: a) firms	792 000	Not applicable	Not applicable	Not applicable
2.13b Number of beneficiaries with access to financial services with EU support: b) individuals	2 622 000	307 000	660 000	1 655 000
2.14 Number of quality schemes adopted by economic operators with EU support	33 000	Not applicable	Not applicable	Not applicable
2.15 Number of people who have benefited from institution- or workplace-based VET/skills development interventions supported by the EU	1 969 000	883 000	751 000	335 000
2.16 Total length of road supported by the EU through a) construction, b) rehabilitation, c) maintenance (km)	79 000	Not applicable	Not applicable	Not applicable
2.17 Number of migrants, forcibly displaced people or individuals from host communities protected or assisted with EU support	20 430 000	4 702 000	5 240 000	10 488 000
2.18a Number of migration management or forced displacement strategies or policies a) developed/revised with EU support	81	Not applicable	Not applicable	Not applicable
2.18b Number of migration management or forced displacement strategies or policies b) under implementation with EU support	65	Not applicable	Not applicable	Not applicable
2.19 Number of countries and cities with climate change and/or disaster risk reduction strategies a) developed	234	Not applicable	Not applicable	Not applicable
2.19 Number of countries and cities with climate change and/or disaster risk reduction strategies b) under implementation with EU support	118	Not applicable	Not applicable	Not applicable
2.20 Number of micro, small and medium enterprises applying sustainable consumption and production practices with EU support	24 000	Not applicable	Not applicable	Not applicable

EU Results Framework indicator	Total	Results for women/girls	Results for men/boys	Not identified
2.21 Greenhouse gas emissions avoided with EU support (tonnes CO ₂ eq)	95 871 000	Not applicable	Not applicable	Not applicable
2.22a Marine areas under a) protection with EU support (km ²)	543 000	Not applicable	Not applicable	Not applicable
2.23a Areas of terrestrial and freshwater ecosystems under a) protection with EU support (ha)	75 806 000	Not applicable	Not applicable	Not applicable
2.23b Areas of terrestrial and freshwater ecosystems under b) sustainable management with EU support (ha)	68 975 000	Not applicable	Not applicable	Not applicable
2.24 Number of countries supported by the EU to conduct elections and/or improve their electoral process	56	Not applicable	Not applicable	Not applicable
2.25 Number of government policies developed or revised with civil society organisation participation through EU support	1 598	Not applicable	Not applicable	Not applicable
2.26 Number of victims of human rights violations directly benefiting from assistance funded by the EU	129 000	15 000	21 000	93 000
2.27 Number of people directly benefiting from legal aid interventions supported by the EU	5 831 000	2 049 000	2 091 000	1 691 000
2.28 Number of individuals directly benefiting from EU-supported interventions that specifically aim to support civilian post-conflict peacebuilding and/or conflict prevention	968 000	169 000	153 000	646 000
2.29 Number of state institutions and non-state actors supported on security, border management, countering violent extremism, conflict prevention, protection of civilian population and human rights	11 000	Not applicable	Not applicable	Not applicable
2.30 Number of countries supported by the EU to strengthen revenue mobilisation, public financial management and/or budget transparency	160	Not applicable	Not applicable	Not applicable
2.37 (GERF) Number of individuals benefitting from EU-funded programmes to counter sexual and gender-based violence	16 919 000	6 188 000	6 553 000	4 178 000

¹⁶³ Results for EURF indicators 2.12, 2.19 and 2.30 cannot be broken down by modality. The reason is that per country, multiple interventions can correspond to the indicator methodology and qualify as providing support to a country. These interventions can have different modalities (e.g., Budget Support, Blending operation, project approach). It is therefore not possible to assign support measured under these indicators to specific modalities.

6.10 Results of the implementation of the Gender Action Plan III

This annex was prepared in line with the [European Union \(EU\) Gender Action Plan III](#) (GAP III), indicating that the European Commission (EC) services, in cooperation with the European External Action Service (EEAS), will monitor progress each year on implementing the GAP III '[EU institutional and strategic objectives and indicators](#)' (see Part I of the GAP III Staff Working Document).

It provides an overview of the progress made between 1 January and 31 December 2021, the first year of the GAP III implementation and includes few illustrations of gender mainstreaming efforts among EU Member States. The GAP III mid-term report to be published in 2023 will focus on results and best practices.

In the first year, Commission services, in cooperation with the EEAS, EU Delegations and relevant EU Member States¹⁶⁴, laid the foundations for the full implementation of the GAP III. The process of designing a Country Level Implementation Plan (CLIP)¹⁶⁵ in each country fostered a more strategic approach in cooperation with EU Member States and based on meaningful consultation with partners, including with civil society and women's rights organisations, serving as a political and operational roadmap for the GAP III implementation. A significant number of EU Delegations:

- Equipped themselves with an up-to-date gender analysis at country level, many already engaging in sector analysis to feed programme design;
- Increased substantially the number of gender-responsive and targeted actions both in policy and programmatic terms. Steps were taken towards a meaningful integration of a gender perspective in blending and guarantees;
- Supported partner countries' efforts on gender-responsive budgeting;
- Put measures in place to ensure the use of gender-specific and sex-disaggregated data; and
- Renewed the network of Gender Focal Persons.

The Civilian Planning and Conduct Capability (CPCC), the Military Planning and Conduct Capability (MPCC) and the EU Military Staff developed a tailor-made GAP III monitoring framework for CSDP missions and operations.

The Team Europe approach gained momentum, with evidence of increased coordination, joint initiatives and shared knowledge and expertise. Political and policy dialogue on gender equality and women's empowerment (GEWE) are also reinforcing mutual accountability.

At the international level, too, the EU has further enhanced its leading and coordinating role on GEWE and Women, Peace and Security (WPS) notably in multilateral, regional and bilateral partnerships as well as in conflict and crisis.

¹⁶⁴ The GAP III was endorsed by 24 EU Member States through the [Presidency Conclusions on the Gender Action Plan \(GAP\) III 2021-2025 An ambitious agenda for gender equality and women's empowerment in EU external action](#).

¹⁶⁵ See [GAP III Communication](#), page 7: 'Based on a sound gender country profile, EU Delegations, Common Security and Defence Policy (CSDP) operations and missions, in coordination with EU Member States' embassies, should prepare a 'country-level implementation plan', setting the policy priorities and identifying actions and key objectives selected from the thematic policy areas set out in Chapter 3 of this Joint Communication'.

In 2022, the GAP III implementation will gain further speed, building on the preparatory work done so far. At country level the vision and objectives identified in the CLIPs will be pursued and translated in actions and dialogues. Focus will also be on quality and impact of actions that promote GEWE at all levels, including Team Europe Initiatives (TEIs). Dialogue and partnerships with civil society and women's organisations will be centre stage. Specific efforts will be put on: (1) use of sex-disaggregated and/or gender sensitive data; (2) blending and guarantees contributions to GEWE results; (3) further reinforcing internal capacities; and (4) contributing to the establishment of gender-responsive leadership for EU senior management.

Table 47. 2021 results on the [GAP III's institutional and strategic objectives and indicators](#)

Objectives and targets of the GAP III	Progress in 2021
<p>Objective 1. Increase the number and the funding of new actions that are gender mainstreamed (OECD Gender Marker 1) and targeted (G2) Indicator 1.1. Target 1: 85 % of new actions at the country and regional levels are gender responsive/targeted (G1+G2) by 2025</p>	<p>In progress – % new actions gender responsive/targeted DG INTPA : 84 % DG NEAR : 75 % FPI : 43 % ¹⁶⁶ Total Commission external actions¹⁶⁷: 70 % of new actions</p>
<p>Indicator 1.1. Target 2: 100 % of new actions not targeting gender equality (G0) justified over 2021–2025</p>	<p>In progress - 31 % of new actions marked G0 are correctly justified¹⁶⁸</p>
<p>Indicator 1.1. Target 3: At least two rapid response actions or peace and stability themed actions per year</p>	<p>Target achieved</p>
<p>Indicator 1.2. Target: 1: At least one gender-targeted action (G2 action) per country allocation over 2021-2025</p>	<p>On track - 120 Country-Level Implementation Plans indicate that a G2 action is foreseen over the 2021-2025 period</p>
<p>Target 2: At least one gender-targeted action (G2) per regional allocation over 2021–2025</p>	<p>On track - Gender equality and women’s empowerment (GEWE) priorities identified in all regions In 2021, 13 regional gender targeted actions were foreseen</p>
<p>Indicator 1.3: Increase amount of funding in support of gender equality and women’s empowerment actions (G1 and G2)</p>	<p>Target achieved for 2021: EUR 766 million increase in funding for G1 and G2 actions compared to 2020</p>
<p>Indicator 1.4: Increase amount of funding directed towards women’s rights organisations and movements (WROs)</p>	<p>Target achieved for 2021: EUR 1.93 million increase (27.7 %) in funding for women’s rights organisations and movements compared to 2020</p>
<p>Indicator 1.5: Number of new EU-funded humanitarian programmes marked 1 or marked 2 by the DG ECHO Gender-Age Marker Target: 90 % in 2022 (for 2019 start date projects)</p>	<p>To be evaluated in 2022¹⁶⁹</p>
<p>Objective 2. Gender perspective is mainstreamed in all actions under the investment framework Target: 85 % of all blending operations and guarantees are gender</p>	<p>In progress - 65 % of new blended actions are marked G1 or G2</p>

¹⁶⁶ Number is provisional and will be confirmed in context of the 2022 reporting exercise.

¹⁶⁷ The following regulations are included in this % calculation: NDICI, IPA III and CFSP.

¹⁶⁸ Requirement for GO justification introduced mid-2021.

¹⁶⁹ The post-action assessment is not performed every year. The GAP III foresees that it will be done in 2022 for projects that started in 2019 and were implemented until 2021.

Objectives and targets of the GAP III	Progress in 2021
responsive/targeted (G1/G2) by 2025	
Objective 3. Gender Responsive Budgeting is promoted Target: At least 20 % of new actions supporting public finance management reforms include a gender budgeting component	On track - 18 % of new actions that support public finance management reforms include a gender budgeting component
Objective 4. Gender specific and/or sex-disaggregated indicators are systematically used Target: 85 % of new actions by 2025 have at least the latest progress data entry sex-disaggregated or gender-specific, as mandated by the indicator formulation	Data collection system under construction
Objective 5. GAP III implementation is informed by sound gender profile and framed in 'country-level implementation plans' Target 1: One 'country-level implementation plan' agreed per country and transmitted to HQ	On track - 120 country-level implementation plans agreed and transmitted to HQs
Target 2: One gender analysis per priority sector in all countries	In progress - 69 % of EU Delegations have conducted a gender sector analysis
Objective 6. Gender perspective is integrated in Working Better Together approaches and in broader coordination Target: 85 % of new joint programming documents over 2021-2025 reference and integrate the priorities of GAP III	On track - seven countries have a joint programming-related document which integrates the GAP III's objectives (out of seven)
Objective 7. Political, security and sectoral policy dialogues integrate a gender perspective Target 1: All EUD are engaged in at least one high-level dialogue on GEWE with institutional actors per year per country	On track - 83 % of EU Delegations engaged in policy dialogue with institutional actors with reference to gender equality and women's empowerment
Target 2: All EUDs are engaged in dialogue on GEWE with civil society at least once per country per year over 2021- 2025	On track - 77 % of EU Delegations engaged in dialogue with civil society on gender equality and women's empowerment
Target 3: At least one dialogue per year with civil society on Women Peace and Security (WPS) policy in relevant partner country	On track - 27 % of EU Delegations engaged in a dialogue on Women Peace and Security policy with civil society
Objective 8. All EU actions implemented at regional level are gender mainstreamed	In progress - Priorities have been set in six regions
Objective 9. The EU takes on a coordinated leadership on GEWE in international meetings (UN, AU, NATO, ASEAN, OSCE, G7, G20, etc.) Target 1: At least two per gender focused event per year	Target achieved for 2021

Objectives and targets of the GAP III	Progress in 2021
Objective 10. Gender-responsive leadership enhanced	In progress
Objective 11. Gender Advisors, Focal Persons/Points support for the integration of a gender perspective in EU policies, interventions, and dialogues	<p>On track</p> <p>At Headquarters: 236 gender focal persons in place, 150 (65 %) with role included in their job description.</p> <p>In EU Delegations: 141 gender focal persons, 53 (37.5 %) with role included in their job description</p>

6.10.1 Gender mainstreaming and targeted actions¹⁷⁰

In 2021, a new MFF was adopted integrating a new information system which does not allow comparison with data related to the previous cycle¹⁷¹. Overall, the number of gender-responsive (marked G1¹⁷² using the OECD-DAC gender equality policy marker) and gender-targeted (marked G2) actions amounts to 70 %. For DG INTPA, this percentage is at 84 %, for DG NEAR at 75 % and for the FPI at 43 %¹⁷³. In total, EUR 9 263 million were committed to actions marked G1 and G2. 4 % of new actions in 2021 targeted specifically gender equality (marked G2) corresponding to funding of EUR 243 million¹⁷⁴.

Table 48. Number and percentage of new actions that are gender-responsive (G1)/gender-targeted (G2), 2021 preliminary data¹⁷⁵

Entity	Total number new actions (G0, G1 and G2)	Number new G2 actions	% new G2 actions	Number new actions G1 + G2	% new actions G1 + G2
Total EC	408	17	4	286	70
FPI	92	6	7	40	43 ¹⁷⁶
INTPA	182	6	3	152	84
NEAR	124	5	4	93	75
Others	10	0	0	1	10

¹⁷⁰ See objectives 1 to 4 in the GAP III Staff Working Document.

¹⁷¹ On top of other technical issues, to note that the OECD-DAC gender equality policy marker methodology is now applied to ODA and non-ODA actions while until 2020, it only applied to ODA actions.

¹⁷² As per the OECD-DAC gender equality policy marker, applied by INTPA, NEAR and FPI: "G1": Gender equality is an important and deliberate objective, but not the principal reason for undertaking the project/ programme. "G2": Gender equality is the main objective of the project/programme and is fundamental in its design and expected results. The project/programme would not have been undertaken without this gender equality objective.

¹⁷³ Number is provisional and will be confirmed in the context of the 2022 reporting exercise.

¹⁷⁴ 2021 marked the start of a new financial programming cycle and focus was put on the preparation and gender mainstreaming of the Multiannual Indicative Programmes and on preparing the CLIPs. CLIPs come with a first indication of targeted actions (G2 actions) are to be implemented before 2025 (see section 2).

¹⁷⁵ Data are extracted from the Common Reporting Standard tables that are sent to the OECD-DAC by DAC members. Those data are usually sent by each country and by the EU at the end of the first semester of the following year. When this report was drafted, the data provided are still preliminary data. Those data are based on the following EC instruments: CSFP, IPA III and NDICI.

¹⁷⁶ Number is provisional and will be confirmed in the context of the 2022 reporting exercise.

Table 49. Funds committed to new actions that are gender-responsive (G1)/gender-targeted (G2), 2021 preliminary data¹⁷⁷

Entity	Funds contributing to G2 actions (EUR)	Funds contributing to G1 actions (EUR)	Grand total (EUR) G0+G1+G2 actions
EC	242 993 000	9 020 037 798	12 377 108 962
FPI	25 700 000	266 911 148	863 104 377
INTPA	159 500 000	6 471 379 650	8 012 620 587
NEAR	57 793 000	2 277 747 000	3 478 237 547
Other	0	4 000 000	23 146 450

The percentage of gender-targeted actions (marked G2) increased as well for many EU Member States as this is the case for example in Croatia, Denmark, Finland, Slovenia and Spain. Among EU Member States the percentage of gender-responsive actions (marked G1) is quite diverse, with higher scores for regional actions.

The EU allocated approximately EUR 33.1 million in **humanitarian aid** in 2021 to prevent and respond to gender-based violence (GBV) through protection and health programming.

Gender mainstreaming within the **investment framework** is underway with a set of initiatives aiming at building shared understanding and a sound tracking system, as shown for example with the Build Back Better project in Mozambique and the Renewable Energy Programme in Nigeria. Member States are also active in this area, for example Italy funds PRASOC, a blended project in Tunisia that supports the private sector to enhance financial inclusion in agriculture.

The integration of **gender-responsive budgeting** (GRB) in public finance management (PFM) is also progressing, with 13 actions identified in 2021. For instance, in Moldova and Kosovo, the Public Expenditure and Financial Accountability Assessment included gender budgeting component. In addition, 18 gender-responsive budgeting initiatives delinked from PFM support were reported. For example, in Uganda, the EU's support for the Equal Opportunities Commission led to a national commitment to report on public expenditure on gender equality, alongside a new dialogue on a medium-term gender equity expenditure framework. Several EU Member States such as Denmark, Finland, France, Germany, Italy and Sweden also supported gender-responsive budgeting.

Regarding the use of gender-specific and sex-disaggregated indicators, action is being taken to allow a systematic collection of disaggregated data through the [Operational System \(OPSYS\)](#). In parallel, 78 % of EU Delegations adopted strategies to improve data collection. One-third of EU Delegations support national statistical systems or other systems of collection of disaggregated data.

¹⁷⁷ Ibid as footnote 175.

Support for **sexual and reproductive health and rights** (SRHR) remained firmly in the EU focus through its inclusion in the Global Challenges Thematic Programme and the regional and country multiannual indicative programmes (MIPs). SRHR is selected in several of the 28 country MIPs prioritising health. 60 GAP III Country Level Implementation Plans (CLIPs), out of 120 finalised in 2021, indicated SRHR as a priority for funding and dialogue. 18 CLIPs mention that specific actions targeting SRHR will be funded by the EU, the majority involving working with civil society on SRHR/family planning or engaging in dialogue with partners. For example, in Zambia, efforts are made to systematically include universal access to sexual and reproductive health services for youth.

In a Team Europe approach, the Commission together with 10 EU Member States (Belgium, Czech Republic, Denmark, Finland, France, Germany, Ireland, Luxembourg, Netherlands and Sweden) are planning a new multisectoral regional programme aiming to advance the SRHR agenda in Sub-Saharan Africa, with a particular focus on adolescent and young women. This initiative aims to strengthen political commitments and capacities to implement SRHR, strengthen regional mechanisms to improve the offer of SRH-commodities, and strengthen advocacy and accountability. The indicative amount committed for this Team Europe initiative (TEI) is of EUR 815 million.

The ongoing regional Spotlight initiative (SI) in Africa focuses on enhancing SRHR, ending violence against women and girls and tackling harmful practices, in partnership with the African Union, UN agencies, CSOs and especially women's rights organisations. The SRHR component amounted to EUR 116 million at the end of 2021.

Funding to women's rights organisations and movements

In line with the GAP III, in 2021 EU engagement with civil society and women's organisations progressed through enhanced dialogue, notably within the broader consultations held over the programming exercise, the preparation of the CLIPs and of the EU Roadmaps for engagement with civil society.

EU funding to women's organisations and movements was mobilised through different channels including grants contracts implemented by civil society and indirectly through projects and programs implemented by EU Member States, agencies, partner countries, foundations or multilateral organisations such as the United Nations (UN). The EU-UN Spotlight initiative allocated USD 179 million to civil society (49 % of its activity funding) including USD 144.5 million already awarded in 2021 to more than 1 200 civil society organisations.

Support for 'feminist movements, organisations and institutions working for women's rights' (OECD-DAC sector code 15170) increased from EUR 39.37 million in 2020 to EUR 44.05 million in 2021. This includes direct payments from the EU to **women's rights organisations and movements** estimated at EUR 8.9 million in 2021, showing a 27.7 % increase compared to 2020 (EUR 6.97 million). 'Support to ending violence against women and girls' (OECD-DAC sector code 15180) amounted to EUR 143.89 million in 2021 (EUR 163 million in 2020) including EUR 22.87 million directly paid by the EU to non-governmental organisations (EUR 10.58 million in 2020).

EU Member States (MS) support to women's rights organisations

Many EU Member States support women's rights organisations and feminist movements. France continued the implementation of the 2020-2022 EUR 120 million Support Fund for Feminist Organisations. The Netherlands supported the Leading from the South feminist philanthropic fund and alliance managed by four women's funds (EUR 40 million). Germany supported the programme Enhancing Women's Leadership for Sustainable Peace in Fragile Contexts in the Middle East and North Africa (MENA) region reviewing the experiences of a total of 30 peace processes. Ireland is committed to increasing funding to feminist and women's rights organisations, including those led by trans, intersex, non-binary people, to at least EUR 42 million over the next five years. There are other numerous relevant examples from all Member States who contributed to this report, showing the importance given by the EU to strengthening women's rights organisations and movements.

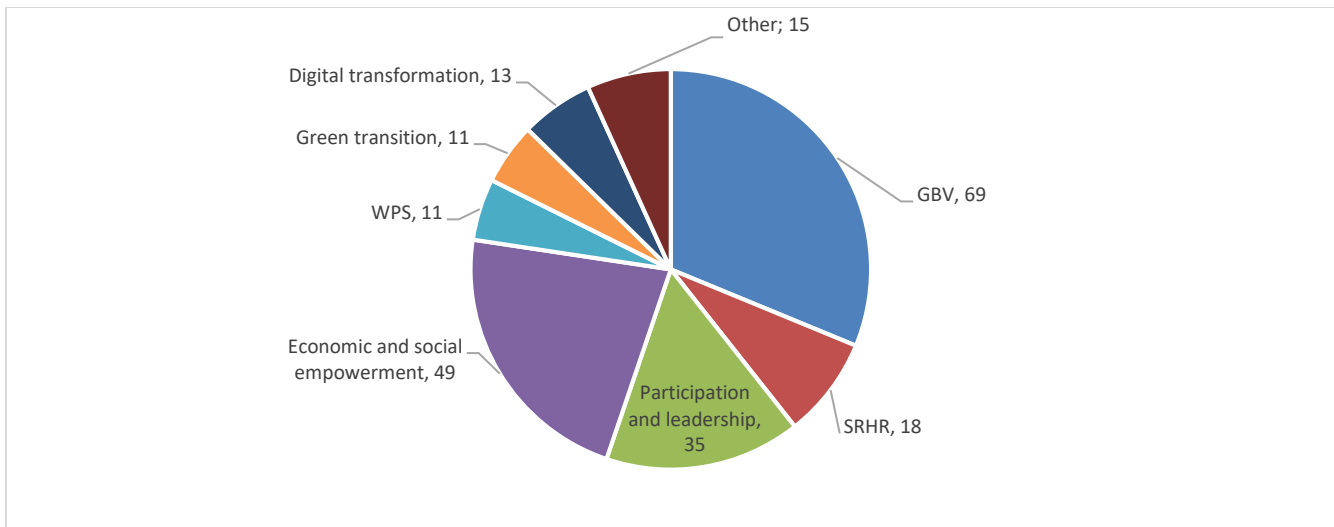

6.10.2 Strategic engagement at the country, regional and international levels¹⁷⁸

In 2021, focus was on generating robust **gender analysis** to feed mainstreaming and decision-making. Overall, 92 EU Delegations have updated their gender country profiles. 81 EU Delegations already developed gender sector analyses covering several sectors such as economic and social rights, participation and leadership, the green transition, infrastructure, and science, technology, engineering and mathematics (STEM). Some analyses also addressed masculinity and lesbian, gay, bisexual, transgender, intersex and queer (LGBTIQ) issues. EU Member States seem to have prioritised gender analyses in the education sector.

120 Country level implementation plans (CLIPs) were finalised and sent to Headquarters. 78 EU Delegations (70 %) provided information on targeted actions (marked G2). Gender Based Violence, Economic and social empowerment, Participation and leadership are the three most frequently selected areas of engagement for these actions (see Figure 1).

Figure 1. Number of planned 'G2' actions for 2021-2025 by key area of engagement, as indicated in the CLIPs

¹⁷⁸ See objectives 5 to 9 in the GAP III Staff Working Document.

In **Somalia**, the gender sector analysis on resilience guides the EU's programming in priority sub-sectors as durable solutions, food security and nutrition, agriculture and fisheries, the environment and climate change.

During 2021, a joint programming document (JPD) that substitutes the MIP was adopted in seven countries¹⁷⁹. All these JPD meaningfully integrate the GAP III objectives. In 2021, at least 52 Team Europe Initiatives (TEIs) incorporated the GAP III objectives. For instance, EU actors developed a Team Europe Response to the crisis in **Myanmar**, informed by a joint analysis of critical areas based on a human rights-based approach and the promotion of gender equality. Gender was also integrated into several TEIs that focus on the green deal and climate change, including in **Laos PDR, Madagascar** and **Zambia**.

In **Guatemala**, the Green Deal TEI (*Petén TEI*) promotes equal access to and control over natural resources, alongside equal participation in decision-making on environmental and climate change policies. The TEI on sustainable and inclusive growth addresses barriers to women's economic empowerment, such as gender-based violence, the lack of sexual and reproductive health and rights, and women's disproportionate burden of unpaid care work.

In 2021, **renewed effort was made on political and policy dialogue on gender equality issues** which took place in 94 countries (84 %), many involving representatives of women's rights organisations. Joint dialogues with EU Member States took place in 77 countries (69 %). Political and policy dialogues most frequently discussed gender-based violence in the private sphere, the public sphere and the world of work, with a focus on femicide, particularly in Latin America. In the area of economic empowerment, dialogues focused on decent work, as well as on women's engagement in the green, circular and blue economies. Wherever political dialogue proved difficult, policy dialogue with women's rights organisations took place.

¹⁷⁹ Djibouti, Ecuador, Ghana, Laos, Mali, Senegal and Togo.

The EU, in partnership with the Government of **South Africa** and civil society organisations, held an unprecedented policy dialogue event to review policies on the protection of transgender and intersex persons, legal gender recognition and ending intersex genital mutilation.

Many EU Member States' bilateral dialogues focused on Women, Peace and Security. This was also one of the priorities of the Slovenian EU Presidency. EU actors engaged in a range of ambitious **public diplomacy activities** to build shared accountability, while making good use of social media platforms to reach a wide audience.

Strategic engagement at the regional level was enhanced integrating clear gender equality and women's empowerment objectives in the Regional Indicative Programmes. The fight against gender-based violence is a specific objective for the Enlargement region, the Southern Neighbourhood region and for Sub-Saharan Africa, while actions to challenge gender stereotypes and strengthen gender-responsive policymaking featured in the Eastern Partnership programme.

Looking at the international level, in 2021 the EU reaffirmed its unconditional support for gender equality worldwide, including by stepping up its **coordinated leadership** at high-level events. G7 members confirmed their commitment to increasing action on three intersecting goals – educating girls, empowering women, and ending violence against women and girls – for an inclusive and sustainable recovery from the COVID-19 pandemic for all. The Joint Declaration between the African Union and the EU in Kigali in November 2021 reiterated both unions' commitment to the full implementation of the Beijing Platform for Action, the Programme of Action of the International Conference on Population and Development, and the outcomes of their review conferences.

Several EU Member States (Denmark, Finland, France, Germany, The Netherlands, Spain and Sweden) and the Commission continued to take up their role as co-leads in the different [Generation Equality Forum Action Coalitions](#). In July 2021 a Global Acceleration Plan for gender equality was adopted comprising EU commitments in line with GAP III.

In addition, the EU continued to press forward on the WPS agenda. For example, a joint EU and UN statement on WPS was issued in October 2021. The EU also increased its involvement in the **Call to Action on Protection from Gender-based Violence in Emergencies** and sent out its eight commitments¹⁸⁰ to the [Call to Action Road Map 2021–2025](#). In terms of trade policy, the EU decided to co-sponsor a new **Joint Ministerial Declaration on the Advancement of Gender Equality and Women's Economic Empowerment within Trade** at the World Trade Organisation's (WTO) 12th Ministerial Conference. The EU's Gender Lens Project with the International Trade Centre (ITC) was launched to provide insights on addressing gender equality and women's empowerment in trade.

¹⁸⁰ EU's eight commitments are: (1) Implementation of relevant policies (i.e. humanitarian policies on Gender, Protection, Gender-Age Marker, as well as EU policies such as the third EU Gender Action Plan (GAP III) and the Strategic Approach on Women, Peace and Security), (2) Capacity building of staff and partners (for instance through the e-learning on the DG ECHO Gender-Age Marker); (3) Advocacy on GBV in emergencies and the Call to Action; (4) Support to survivors of gender-based violence (i.e. humanitarian GBV projects from protection and health programming); (5) Annual tracking and reporting on funding to GBV; (6) Integration of GBV risk mitigation in all aspects of humanitarian assistance (i.e. through the DG ECHO Gender-Age Marker, and work on protection mainstreaming); (7) Promotion of participation of gender and age groups in all aspects of humanitarian assistance (i.e. through the DG ECHO Gender-Age Marker, and work on protection mainstreaming); (8) Strengthen the nexus approach in preventing and responding to GBV.

6.10.3 The EU leads by example¹⁸¹

In line with the [EU's Gender Equality Strategy](#), the GAP III aims to enhance overall internal capacity, set in place a gender-responsive leadership and ensure gender balance at senior and middle management levels.

A mandatory training was provided by ECHO, benefitting 75 % of ECHO's middle management and 57 % of senior management at Headquarters. A new programme on gender responsive leadership for leaders is under preparation by the EEAS and DG INTPA and will include DG NEAR.

As compared to the baseline set in the GAP III, there was an improvement in terms of parity at senior management level both for the Commission and for the EEAS. Women represented 48 % of senior management for the Commission as compared to 42 % in 2019, while 30 % of Head of Delegations (EEAS senior management at EU Delegations level) were women in 2021 as compared to 28 % in 2019.

Table 50. Women in management (Commission Services and EEAS)

			Number of women in senior management	% of women in senior management	Number of women in middle management	% of women in middle management
European Commission	Headquarters and country offices		15	48	158	40
		ECHO	Headquarters	6	50	19
		Country Offices			11	31
	FPI	Headquarters	1	100	4	50
	INTPA	Headquarters	7	50	19	39
		Delegations			4	36
	NEAR	Headquarters	1	25	6	26
EEAS	Headquarters		9	28.30	46	36
	Delegations (HoD)		32	30.20		

As shown in the table 51 below, seven EU Member States exceed 40 % in terms of women's representation at senior management level in Headquarters: Belgium (54 %), France (44 %), Greece (49 %), Luxembourg (46 %), Malta (47 %), Portugal (42 %), Romania (54 %) and Sweden (48 %)¹⁸².

¹⁸¹ See objectives 10 and 11 in the GAP III Staff Working Document.

¹⁸² The definitions of high/middle management are not homogeneous and the percentage presented are based on different data collection systems (e.g., some include Ministries of Interior or Armed Forces and others don't). Therefore these data should be handled with care.

Table 51. Women in management - EU Member States

EU Member State	% of senior management at Headquarters who are women	% of middle management at Headquarters who are women	% of senior management at CSDP who are women	% of middle management at CSDP who are women	% of senior management in embassies who are women	% of middle management in embassies who are women
Austria	-	-	100	-	-	-
Belgium	54	37			17	15
Croatia	15	32	0	0	28.7	51.6
France	44	-	-	-	31	-
Germany	30	33	-	-	-	-
Greece	49	42	-	-	32	33
Ireland	23	47	-	-	38	37
Italy	29	43	-	-	16	30
Latvia	-	-	-	-	40	-
Lithuania	33	59	-	23	28	58
Luxembourg	46	25	0	14	25	18
Malta	47	58	-	-	25	42
Portugal	42	40	31	44	-	-
Romania	54	47	-	11	33	-
Slovak Republic	27	45	-	-	17	42
Slovenia	33	100	-	4	34	67
Sweden	48	60	50	36	48	50

The network of **gender focal persons** (GFPs) grew steadily at Headquarters, EU Delegation and CSDP mission levels, with overall extensive management support. In 2021, 236 gender focal persons were in place at Headquarters, 65 % with their gender focal person's role included in their job description. 141 gender focal persons (GFPs) were operational in EU Delegations, 37.5 % with their role included in their job descriptions. Some EU Delegations set up internal taskforces on gender, as in Bosnia and Herzegovina and in Somalia.

Extensive **training** was organised in 2021 on the GAP III, including eight sessions on the gender-responsive human rights-based approach for EU Delegations, nine introductory sessions on the GAP III (held in FR, ES and EN), five sessions on GAP III & Green Deal, two sessions on GAP III & Digitalisation and one session on GAP III & Jobs and Growth. **In total more than 1 000 persons were trained on GAP III** (including some representatives of EU Member States). At Headquarters, more than 15 presentations and conflict-sensitivity trainings were delivered. In Civilian CSDP missions, Gender Advisors and experts participated in a 35-hour online on-the-job training course and a pilot online training for GFPs was delivered to participants from ten different Missions. This pilot is now turned into a standardised training which will be delivered to all GFPs starting in 2022. All EU Headquarters, diplomatic, civilian and military staff who participated in CSDP missions and operations were trained on conduct and discipline, including content related to sexual exploitation and abuse. All 2 210 members of civilian CSDP missions received training on WPS.

7. FINANCIAL ANNEXES

7.1. EU external assistance in 2021

7.1.1. Introduction to financial tables

General concepts and standards:

The tables and graphs in these financial annexes present the main data on the EU's International Partnerships (including development assistance) in 2021 by country, region, sector and instrument.

The legal and financial basis of the EU's International Partnerships under the 2021-2027 Multiannual Financial Framework is composed of several instruments. The main one is the Neighbourhood, Development and International Cooperation Instrument – Global Europe (NDICI-Global Europe). NDICI- Global Europe includes geographical and thematic components previously covered by the EDF, the DCI and the ENI instruments. NDICI-Global Europe is entirely funded by the general budget of the EU. Other instruments include humanitarian assistance and the third Instrument of Pre-Accession (IPA III). While new commitments in 2021 are only made on new MFF instruments, payments are made on both the new MFF and the previous MFF instruments, including the European Development Fund.

Whenever references are made in the following tables to the 'EU budget', this refers to the part of the EU general budget managed by the European Commission. It does not cover EU Member States' national budgets for development assistance.

When references are made in the tables to 'EDF', this refers to all European Development Funds for which there were payments in 2021 (9th, 10th and 11th EDFs) and is not limited to only the 11th EDF.

The methodology of the financial annexes of the Annual Report is compliant with international standards as defined by OECD's Development Assistance Committee (DAC) and in particular:

- The concept of Official Development Assistance (ODA) used throughout the tables and figures is defined by the OECD DAC. Not all EU external assistance can be reported as ODA. Whether a project is classified as ODA depends on the eligibility of the recipient country and the purpose and contents of the project.
- The definition of 'region' reflects the country groupings used by OECD DAC. It does not always coincide with the country groupings used in the Commission instruments. The granularity level of some of the tables allow for a breakdown by country and instrument for analytical purposes.
- The taxonomy of countries and territories of the financial annexes of the Annual Report is compliant with the European Commission's Interinstitutional Style Guide as well as the latest guidelines elaborated by the European Commission's Secretariat General on the subject. In particular, 'Kosovo *' in the tables refers to the following note: * This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.

- The grouping of ODA-eligible countries in four groups (Less Developed Countries or LDCs; Other Low-Income Countries or OLICs; Lower Middle Income Countries or LMICs; Upper Middle Income Countries or UMICs) is a dimension widely used by OECD DAC and other international organisations. It is based on Gross National Income (GNI) per capita calculations and on human development indexes.
- The activity sectors used in the tables are those used by OECD DAC for sectoral ventilation (DAC purpose codes).

There are several methodological differences between the presentation of the data in this Annual Report and the OECD DAC statistics, which makes it difficult to compare the two data sets. To give a few examples, co-financing (contributions by EU Member States directly to specific projects) are included in the Annual Report as they are part of the EU's operational portfolio, but not reported to OECD DAC to avoid double counting. On the other hand, transactions not funded by Heading VI such as concessional loans by the European Investment Bank and MFA loans to the European neighbourhood (managed by Directorate General of Economic and Financial Affairs) are reported to OECD DAC but not included in this report.

Structure and common elements:

The transition to the new MFF has introduced new instruments and substantially modified the financial structure of EU Development Assistance. To reflect this as well as the evolution of reporting needs, the financial annexes have been substantially modified and simplified, while preserving the continuity of the series.

Financial annexes of the 2021 Annual Report, presented in this Chapter 7, are structured in three sections as follows:

- Tables 1 to 18 are the core of the financial reporting. These tables remain mostly unchanged year after year and ensure the continuity of the statistical series. They present commitments and payments funded by the Heading VI.
- Tables 19 to 22 are specific to the new MFF 2021-2027 and address specific needs and legal requirements.
- Tables TF1 to TF6 present data on the implementation of the European Union Trust Funds.

At the top right of each table, a small information box specifies whether the figures in the table are Commitments or Disbursements (C or D respectively); whether only Official Development Assistance (ODA) figures are included, or non-ODA figures are included as well (Y or N, depending); which of the EDF, the INTPA (Directorate-General for International Partnerships, formerly Development and Cooperation) budget lines, and the non-INTPA budget lines (including Directorate-General for Neighbourhood and Enlargement Negotiations) are included (Y or N, depending).

To improve readability, all numbers in the tables are presented as rounded up to the nearest million euro. When a table shows the number "0", it means that the exact figure is lower than 0.5 million euro. When a table shows a blank, it means that the exact figure is zero.

A list of abbreviations is also provided in this annex.

List of Annex 7 tables:

Table 1 shows the relative importance of external assistance in the overall expenditure of the European Commission.

Table 2 provides a breakdown between ODA and non-ODA by Directorate-General.

Table 3 provides detailed breakdowns of the commitments and payments funded by the EU Budget by managing entity and instrument.

Table 4 presents a breakdown of the payments funded by the European Development Fund for 2021. New commitments targeting the geographical area of former EDF are now made under NDICI-Global Europe and are part of the EU Budget shown on table 3A.

Table 5 gives a detailed sectoral breakdown of ODA by Directorate-General.

Table 6 gives a breakdown of European Commission external assistance by country.

Table 7 shows the distribution of ODA by OECD high-level sector and different country groupings, including the country income level group.

Table 8 combines a ventilation of ODA by sector and by country and includes a calculation of ODA per capita.

Tables 9 and 10 provide a detailed sectoral breakdown of ODA by region for INTPA and non-INTPA ODA respectively.

Table 11 combines a detailed breakdown of ODA by sector and by instrument.

Table 12 provides a complete detailed breakdown of EU external assistance. It includes ODA eligible countries as well as ineligible countries and territories, non-allocated flows, core funding to multilaterals and administrative costs to give a complete picture.

Table 13 introduces a breakdown by aid mechanism (project approach, general and sectoral budget support) combined with instruments.

Tables 14 to 17 show an evolution over the last five years of some the key variables: sources of the external assistance by Directorate General, sectoral breakdown, breakdown by region, income group, aid modality.

Table 18 (newly introduced this year) will provide a history of the new MFF broken down by instrument.

Table 19 addresses requests by the Council of the European Union¹⁸³ and shows 2021 payments reporting on implementation by type of implementation partners in both direct and indirect

¹⁸³ WK 1423/2020 REV 2

management, as referenced in the Financial Regulation¹⁸⁴. This table is a synthesis of several tables presented in previous reports.

Detailed lists of contracts signed with international organisations or development agencies in indirect management are available in the Annual Activity Reports (annex 6) of the Directorate General for International Partnerships (INIPA), the Directorate General for Neighbourhood and Enlargement Negotiations (NEAR), and the Directorate General for European Civil Protection and Humanitarian Aid Operations (ECHO) respectively, at the following link: https://ec.europa.eu/info/publications/annual-activity-reports_en

Table 20 provides a breakdown of 2014-2020 payments by ‘forms of union funding’ using the new taxonomy defined in Article 27 of the NDICI-GE basic act, as requested by Article 41 of the NDICI-Global Europe basic act¹⁸⁵, for both direct and indirect management modes.

- For the sake of clarity, certain forms of EU funding that are not explicitly included in Article 27 NDICI-Global Europe are shown on distinct lines: in particular this is the case for Contribution and Delegation Agreements as well as Programme Estimates.
- ‘Blending’ is defined in the context of this table as payments on contracts funded by the European Commission leading to the mobilisation of additional public or private finance for the implementation of projects. Mobilised funds per se are not included.

Table 21 (newly added) provides a detailed breakdown of completion lines (disbursements funded by the previous MFF) by instrument, including the EDF.

Table 22 (newly added) presents the contribution to the Sustainable Development Goals (SDG) in 2021 for Commitments and Disbursements. Each transaction contributes to one ‘main’ SDG and up to nine ‘significant’ SDGs, for a maximum total of ten. As there can be only one ‘main’ SDG per transaction, there is no double counting of ‘main’ SDGs and the total matches the total of transactions. The ‘significant’ SDGs reflects the transversal nature of SDGs.

Tables TF1 to TF6 provide information on the implementation of EU Trust Funds. EU Trust Funds are new development tools that pool together resources from different donors (including the European Commission) to enable a quick, flexible, and collective EU response to the different dimensions of a situation requiring urgent response. They are specific instruments with their own accounts and financial management.

As of 2021, four EU Trust Funds are active: TF Africa (fostering stability and assisting a broad group of countries across the African continent), TF Bêkou (addressing the crisis in Central Africa), TF Madad (addressing the consequences of the Syrian crisis) and TF Colombia (in support of Colombia's post-conflict peace building efforts).

The tables TF 1 to TF 6 are shown to provide some information on the financial implementation of the EU Trust Funds in a way that is consistent with international DAC standards.

¹⁸⁴ Financial Regulation Article 62 para 1 point c).

¹⁸⁵ REGULATION (EU) 2021/947 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 9 June 2021 establishing the Neighbourhood, Development and International Cooperation Instrument – Global Europe

Annex TF 1 shows the contributions to the Trust Funds, both during previous years and for 2021.

Annexes TF 2 to TF 6 provide the breakdown of the expenditure realised by the active Trust Funds.

7.1.2. Financial tables

The Annual Report main financial annex consists of the following tables:

- 1 Percentage of EU Budget committed and disbursed on External Action in 2021
- 2 Proportion of External Action used for Official Development Assistance (ODA) in 2021
- 3A General EU budget for External Action in 2021 by DG - Commitments
- 3B General EU budget for External Action in 2021 by DG - Disbursements
- 4 European Development Fund (EDF) in 2021
- 5A Sectoral breakdown of ODA managed by the European Commission in 2021 - Commitments
- 5B Sectoral breakdown of ODA managed by the European Commission in 2021 - Disbursements
- 6A Country breakdown of European Commission development assistance in 2021 - Commitments
- 6B Country breakdown of European Commission development assistance in 2021 - Disbursements
- 7 Distribution of ODA by OECD Sector and Country Grouping in 2021
- 8A ODA Recipient Country by main OECD sector in 2021 - Commitments
- 8B ODA Recipient Country by main OECD sector in 2021 - Disbursements
- 9A INTPA in 2021: A closer look. Sectoral breakdown per region - Commitments
- 9B INTPA in 2021: A closer look. Sectoral breakdown per region - Disbursements
- 10A Budget Non-INTPA in 2021: A closer look. Sectoral breakdown per region - Commitments
- 10B Budget Non-INTPA in 2021: A closer look. Sectoral breakdown per region - Disbursements
- 11A Sectoral breakdown per instrument in 2021 - Commitments
- 11B Sectoral breakdown per instrument in 2021 - Disbursements
- 12A Breakdown by country and instrument for 2021 - Commitments
- 12B Breakdown by country and instrument for 2021 - Disbursements
- 13A Breakdown by co-operation modality and by instrument 2021 - Commitments
- 13B Breakdown by co-operation modality and by instrument 2021 - Disbursements
- 14A Sources of External Action in 2017 - 2021 - Commitments

14B Sources of External Action in 2017 - 2021 - Disbursements

15 Sectoral breakdown of Official Development Assistance (ODA) for 2017 - 2021

16A Regional distribution of Official Development Assistance (ODA) to developing countries for 2017 - 2021

16B Regional distribution of Official Development Assistance (ODA) to developing countries for 2017 - 2021

17 Breakdown by co-operation modality for 2017 - 2021

18 ODA by instrument for 2021 - 2027

19 Breakdown by Management Type - Disbursements in 2021

20 Disbursements - Breakdown by forms of Union Funding as defined in Articles 41 and 27 NDICI

21 Disbursements related to the previous MFF

22A - Number of contributing programmes per SDG for 2021 - Commitments

22B - Number of contributing programmes per SDG for 2021 - Disbursements

The Annual Report financial annex presents analysis of the implementation of the EU Trust Funds in the following tables:

TF 1 Overview of incoming contributions (disbursements from contributors)

TF 2A Overview of committed and disbursed amounts

TF 2B Proportion of Trust Funds assistance used for Official Development Aid (ODA) in 2021

TF 3A Sectoral breakdown of Trust Fund Africa

TF 3B Regional breakdown of Trust Fund Africa

TF 4 Sectoral breakdown of Trust Fund Bêkou

TF 5 Sectoral breakdown of Trust Fund Colombia

TF 6 Sectoral breakdown of Trust Fund Madad

Notes: All amounts are displayed in EUR millions.

Table of Abbreviations

Abbreviation	Meaning
ACP	Africa, Caribbean, Pacific
AGRI	The Directorate-General for Agriculture and Rural Development
CEEC	Central and Eastern European Countries
CFSP	Common Foreign and Security Policy Instrument
CLIMA	The Directorate-General for Climate Action
DCI - Geo	Development Cooperation Instrument - Geographic
DCI - Thema	Development Cooperation Instrument - Thematic
ECFIN	The Directorate-General for Economic and Financial Affairs
ECHO	The Directorate-General for Humanitarian Aid and Civil Protection
EDF	European Development Fund
EFSD	European Fund for Sustainable Development
EIDHR	European Instrument for Democracy and Human Rights
EMPL	The Directorate-General for Employment, Social Affairs and Inclusion
ENI	European Neighbourhood Instrument
ENV	The Directorate-General for the Environment
FAO	The Food and Agriculture Organization
FPI	Service for Foreign Policy Instruments
Heading 4	MFF Heading - EU as a global player
Heading 5	MFF Heading - Administrative expenditure (of the EU Budget and limited to External Assistance)
HUMA	Humanitarian Aid
IcSP	Instrument contributing to Stability and Peace
ILO-RBSA	International Labour Organisation - Regular Budget Supplementary Account
INSC	Instrument for Nuclear Safety Cooperation
INTPA	The Directorate-General for International Partnerships
IPA2	Instrument for Pre-Accession Assistance
LDC	Least Developed Countries
LMIC	Lower Middle Income Countries
MADCT	More Advanced Developing Countries and Territories
MFA	Macro Financial Assistance
MFF	Multiannual Financial Framework
NEAR	The Directorate-General for Neighbourhood and Enlargement Negotiations
NGO	Non Governmental Organisation
NIS	Newly Independent States
Non-ODA	Development aid not classified as Official Development Assistance (ODA)
ODA	Official Development Assistance
OECD	The Organisation for Economic Co-operation and Development
OHCHR	United Nations High Commissioner for Human Rights
OLIC	Other Low Income Countries
PPP	Public Private Partnership
REGIO	The Directorate-General for Regional and Urban Policy
SANTE	The Directorate-General for Health and Food Safety
TAXUD	The Directorate-General for Taxation and Customs Union
TRADE	The Directorate-General for Trade
UMIC	Upper Middle Income Countries
UNCCD	Convention to Combat Desertification
UNECE	United Nations Economic Commission for Europe
UNEP	United Nations Environment Programme
UNFCCC	United Nations Framework Convention on Climate Change
UNRWA	The United Nations Relief and Works Agency

7.2. EU External Investment Plan Blending in 2021

7.2.1. Introduction to EU External Investment Plan Blending Tables

Section 5.2.2. of this report (see Part I of this SWD) gives an overview of the EU's use of blending as a way of financing development projects. Blending combines grants from the EU with loans and other types of financing from development banks and other public and private investors.

Blending is one of the cornerstones of the EU External Investment Plan (EIP), a major EU initiative. The EIP was created in 2017 to scale up investment in Sub-Saharan Africa and the EU Neighbourhood.

The Plan has a financing arm, the European Fund for Sustainable Development (EFSD), managing EU contributions in excess of EUR 5.7 billion from 2017 to 2021.

Of this, approximately EUR 4.2 billion is for blending projects, and the remaining amount is for the EFSD guarantee. Tables B1.1, B1.2 and B1.3 that follow give figures for blending projects, which the EU approved in 2021 for the Plan's two main target regions: Sub-Saharan Africa and the EU Neighbourhood.

The tables show:

- How much the EU contributed towards blending projects;
- How much investment the projects are expected to generate (leverage);
- What form the EU's contributions take; and
- What areas of the economy the projects focus on.

A final table (B2) shows the share of total EU contributions allocated to least-developed and middle- and high-income countries in Sub-Saharan Africa.

7.2.2. EU External Investment Plan Blending Tables

Table B.1.1: Blending projects approved in 2021

Overall EU contribution (EUR) and leverage (fees excluded):

	Sub-Saharan Africa*	EU Neighbourhood	Total
EU contribution	211 million	253 million	464 million
Investment leveraged	1.4 billion	1.2 billion	2.6 billion
Number of projects	18	19	37

**This includes thematic projects with Sub-Saharan Africa and the Neighbourhood in their scope, with project amounts included pro-rata.*

Table B.1.2: EU contributions by type of support (2021)**Sub-Saharan Africa**

Support	EU Contribution (EUR million)
Technical Assistance	49.8
